North America are very expensive which is quite high for students studying in Turkey Fourth as a developing country financial practices in Turkey the financial structures and environment of companies are quite different from developed countries The challenges mentioned above are the main sources of motivation for writing this book The faculty members involved in the book s writing are people who have experienced those challenges All have a long educational background and besides they are involved in the financial markets and some of whom are in decision making positions Each of the sections contains real world and Turkey examples values current financial practices and new theories The price of this book has been kept as low as possible Thus it is aimed to contribute to both our students and the economy of the country Financial managers students academicians and other interested in the financial sector will benefit from the theories examples problem solutions and recommendations contained in the book We wish the book to be useful to students and all interested in finance
