problem is compounded by the paradoxical nature of their intellect and an unbending system ill equipped to cater to their unique learning needs

Twice Exceptional Supporting and Educating Bright and Creative Students with Learning Difficulties provides cutting edge evidence based approaches to creating an environment where twice exceptional students can thrive

Viewing the 2e student as neither exclusively disabled nor exclusively gifted but rather as a dynamic interaction of both leading experts offer holistic insight into identification social emotional development advocacy and support for 2e students

With chapters focusing on special populations including autism dyslexia and ADHD as well as the intersection of race and 2e this book highlights practical recommendations for school and social contexts

In expounding the unique challenges faced by the 2e population Twice Exceptional makes a case for greater flexibility in our approach to education and a wider notion of what it means to be academically successful

*Autistic Spectrum Disorders in the Secondary School* Lynn Plimley, Maggie Bowen, 2006-04-24

I liked the way it dealt with the difficult issues such as mental health sexuality and future employment in a clear and direct way providing well thought out practical responses

Easy to read yet informative

Very accessible in an area of SEN that is now a key area of concern

Captivating good presentation with the case studies reflective oasis and points to remember

Very useful for Sencos and teachers

Judging Panel for NASEN TES Book Award

There can be no doubt that the action suggested by the authors to improve outcomes for pupils with ASD would benefit the inclusion of all pupils

Special Needs Information Press

The book gives a clear insight into some of the issues which are important from the perspective of the pupil the challenges they face and the behaviours that can result

It openly addresses the impact of these behaviours on a school and offers clear guidance and strategies

The options given are realistic practical and achievable and the Reflective Oasis sections offer an ideal starting point for self evaluation and staff training

Mike Ridout Head of Access and Inclusion Service Bridgend LEA

All those involved in education at secondary level including senior managers and governors will find this concise book informative in helping them to understand the needs of their pupils with ASD

Ian Attfield Advisory Teacher ASD Birmingham Specialist Support Service

The book not only gives sound advice it helps the reader to find a wider range of sources of support and information

a useful practical guide that makes the organisation of inclusive education achievable

Special

The book does have a number of useful strategies and tips but it provides more than just a list of practical points

Support staff are encouraged to reflect upon their own practice and that of their school

The book is well worth buying and should appeal both to support workers and their managers

Support For Learning

The book fills a niche by distilling and providing information to busy teachers

an important little book that is quite readable and may be very useful to its intended audience

American Psychological Association

When a young person with autistic spectrum disorders enters secondary school there are lots of new factors to consider

This books looks at making good transitions from primary school how to provide helpful INSET for colleagues including teachers senior managers support staff and lunchtime supervisors using a special interest as a tool for learning record keeping IEPs and sharing information across the school

subject disapplication and

formal examinations social strategies to employ in a large high school useful tips for staff what to do and what not to do work experience careers and self advocacy The importance of working closely with parents is also covered as is dealing with challenging behaviour the book not only gives sound advice it helps the reader to find a wider range of sources of support and information The authors have not sought to minimise the difficulties or to pretend that schools and individuals will not have to change or adapt nor have they avoided difficult questions What they have one is to write a useful practical guide that makes the organisation of inclusive education achievable Resource File      *Autistic Intelligence* Douglas W. Maynard, Jason Turowetz, 2022-05-25 As autism has become a widely prevalent diagnosis we have grown increasingly desperate to understand it Whether through baseless blame on vaccination or struggles to determine the potential genetic origins of autism Americans have devoted a great deal of thought to what autism is and where it comes from In *Autistic Intelligence* Douglas Maynard and Jason Turowetz focus on a different origin of autism the diagnostic process By turning to diagnosis they ask us to begin with the basic questions of what norms we measure autistic behavior against why we understand autistic behavior as disordered and how we go about assigning that disorder to particular people The authors take a close look at a clinic in which children are assessed for and diagnosed with autism They spent hours in assessment evaluations with psychologists pediatricians parents and children and the resulting data enabled them to make plain the systems language and categories that clinicians rely upon when making their assessments Those diagnostic tools determine the kind of information doctors can gather about children and indeed those assessments affect how children act Autism is not a stable category they show but the result of an interpretive act And in the process of diagnosing children with autism they argue we miss all of the unique contributions they make the world around them      *Good Reasons for Bad Feelings* Randolph M. Nesse, MD, 2019-02-12 A founder of the field of evolutionary medicine uses his decades of experience as a psychiatrist to provide a much needed new framework for making sense of mental illness Why do I feel bad There is real power in understanding our bad feelings With his classic *Why We Get Sick* Dr Randolph Nesse helped to establish the field of evolutionary medicine Now he returns with a book that transforms our understanding of mental disorders by exploring a fundamentally new question Instead of asking why certain people suffer from mental illness Nesse asks why natural selection has left us all with fragile minds Drawing on revealing stories from his own clinical practice and insights from evolutionary biology Nesse shows how negative emotions are useful in certain situations yet can become overwhelming Anxiety protects us from harm in the face of danger but false alarms are inevitable Low moods prevent us from wasting effort in pursuit of unreachable goals but they often escalate into pathological depression Other mental disorders such as addiction and anorexia result from the mismatch between modern environment and our ancient human past And there are good evolutionary reasons for sexual disorders and for why genes for schizophrenia persist Taken together these and many more insights help to explain the pervasiveness of human suffering and show us new paths for relieving it by understanding individuals as

individuals      **Special Teaching For Special Children? Pedagogies For Inclusion** Lewis, Ann, Norwich,
