Intermediate Microeconomics Steve Erfle,2017-09-14 The overarching premise of this text is that microeconomics is most effectively learned in an active learning interactive environment Students have access to more than 200 Interactive Excel Figures in the online text that allow them to move the graphs using sliders and click boxes This interactivity helps students understand how graphic elements relate to one another These files do not require knowledge of Excel More figures than are typical and many of the figures involve multiple scenarios of the same basic graph Often the text employs interactive questions that require interpreting these scenarios questions posed are answered at the bottom of the page Despite the geometric orientation this text is not light on algebraic analysis The geometry is backed up by the relevant algebra More than 500 equations are numbered for easy reference both within and across chapters And just like the geometry the algebra is essentially error free because it was used to create the graphs The geometric orientation is perfect for the non calculus enhanced classroom but the text can be readily used in a calculus based class because a calculus treatment of the material is provided in appendices and endnotes and calculus based problems are included in the Intermediate Microeconomics An Interactive Approach Workbook **The Economics of Quality, Grades and Brands (Routledge Revivals)** Peter

Bowbrick,2014-08-01 Virtually every decision to produce buy or sell is influenced by quality yet until this book was first published in 1992 there had been very little attempt to produce a comprehensive and practical theory for this Here Peter Bowbrick brings together different traditions of quality analysis from economics marketing economics and marketing itself to identify the limitations of the different traditions of quality economics and some approaches to its analysis Beginning with a definition of the subject and the concepts involved this comprehensive title will be of particular value to students of Economics Marketing and Business Studies

Aiming for an A in A-level Economics James Powell,2018-09-10 Exam Board AQA Edexcel OCR Level A level Subject Economics First teaching September 2015 First exams Summer 2017 Master the skills you need to set yourself apart and hit the highest grades this year round course companion develops the higher order thinking skills that top achieving students possess providing step by step guidance examples and tips for getting an A grade Written by experienced author and teacher James Powell Aiming for an A in A level Economics Helps you develop the A grade skills of analysis evaluation creation and application Takes you step by step through specific skills you need to master in A level Economics so you can apply these skills and approach each exam question as an A A candidate Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A A answers Helps you practise to achieve the levels expected of top performing students using in class or homework activities and further reading tasks that stretch towards university level study Perfects exam technique through practical tips and examples of common pitfalls to avoid Cultivates effective revision habits for success with tips and strategies for producing and using revision resources Supports the major exam boards outlining the Assessment Objectives for reaching the higher levels under the AQA Edexcel and OCR specifications

Effective Grading Barbara E. Walvoord, Virginia Johnson Anderson,2011-01-13 The second edition of *Effective Grading* the book that has become a classic in the field provides a proven hands on guide for evaluating student work and offers an in depth examination of the link between teaching and grading Authors Barbara E Walvoord and Virginia Johnson Anderson explain that grades are not isolated artifacts but part of a process that when integrated with course objectives provides rich information about student learning as well as being a tool for learning itself The authors show how the grading process can be used for broader assessment objectives such as curriculum and institutional assessment This thoroughly revised and updated edition includes a wealth of new material including Expanded integration of the use of technology and online teaching A sample syllabus with goals outcomes and criteria for student work New developments in assessment for grant funded projects Additional information on grading group work portfolios and service learning experiences New strategies for aligning tests and assignments with learning goals Current thought on assessment in departments and general education using classroom work for program assessments and using assessment data systematically to close the loop Material on using the best of classroom assessment to foster institutional assessment New case examples from colleges and universities including community colleges When the first edition of *Effective Grading* came out it quickly

became the go to book on evaluating student learning This second edition especially with its extension into evaluating the learning goals of departments and general education programs will make it even more valuable for everyone working to improve teaching and learning in higher education L Dee Fink author Creating Significant Learning Experiences Informed by encounters with hundreds of faculty in their workshops these two accomplished teachers assessors and faculty developers have created another essential text Current faculty as well as graduate students who aspire to teach in college will carry this edition in a briefcase for quick reference to scores of examples of classroom teaching and assessment techniques and ways to use students classroom work in demonstrating departmental and institutional effectiveness Trudy W Banta author Designing Effective Assessment
