Luisa Lang Owen, 2002-11-19 Not all casualties of war die on the battlefield In the wake of World War II Yugoslavia purged its territory of the ethnic Germans who had formed a part of its human mosaic Tarr'd with their ethnic origins and the conscription of their fighting age men into the Waffen SS the Volksdeutsche as these settlers were called were rounded up at the war's end and herded into concentration camps Those who were not murdered or did not die from the harsh conditions were expelled from the village homes their families had known and loved for three hundred years Nine years old when she entered the concentration camp in 1945 author Luisa Lang Owen survived the persecution of the Danube Swabians eventually finding herself in America where she made a new life for herself a life that nonetheless held within it the memories and lessons of the atrocities she had experienced in her homeland Like thousands of other Germans in the Danube Valley at the end of the war Luisa and her family were chased from their home lodged in a sheep stall and resettled in camps with other Germans from her village Shorn of their possessions given little food or fuel pressed into hard labor beaten by guards and separated from their families many despaired and many died Luisa barely survived as others succumbed to malnutrition disease and exposure Her haunting memoir provides a window into the ethnic cleansing that preceded the recent exterminations in Bosnia and Kosovo by fifty years an episode of horrors that has not appeared as even a footnote in descriptions of the more recent atrocities practiced in that region Her testament as a casualty of war bears historic witness and gives insight into the personal experiences of ethnic cleansing It stands as witness to a massive crime that has been conveniently forgotten a corrective to a bit of neglect that did away with its victims as a people and a personal depiction of what ethnic cleansing is really about The problem was not just that they did not want us to have or to be Luisa Lang Owen writes they wanted us not to have been

**Surfaces and Essences** Douglas R Hofstadter, Emmanuel Sander, 2013-04-23 Analogy is the core of all thinking This is the simple but unorthodox premise that Pulitzer Prize winning author Douglas Hofstadter and French psychologist Emmanuel Sander defend in their

new work Hofstadter has been grappling with the mysteries of human thought for over thirty years Now with his trademark wit and special talent for making complex ideas vivid he has partnered with Sander to put forth a highly novel perspective on cognition We are constantly faced with a swirling and intermingling multitude of ill defined situations Our brain s job is to try to make sense of this unpredictable swarming chaos of stimuli How does it do so The ceaseless hail of input triggers analogies galore helping us to pinpoint the essence of what is going on Often this means the spontaneous evocation of words sometimes idioms sometimes the triggering of nameless long buried memories Why did two year old Camille proudly exclaim I undressed the banana Why do people who hear a story often blurt out Exactly the same thing happened to me when it was a completely different event How do we recognize an aggressive driver from a split second glance in our rearview mirror What in a friend s remark triggers the offhand reply That s just sour grapes What did Albert Einstein see that made him suspect that light consists of particles when a century of research had driven the final nail in the coffin of that long dead idea The answer to all these questions of course is analogy making the meat and potatoes the heart and soul the fuel and fire the gist and the crux the lifeblood and the wellsprings of thought Analogy making far from happening at rare intervals occurs at all moments defining thinking from top to toe from the tiniest and most fleeting thoughts to the most creative scientific insights Like G Escher Bach before it Surfaces and Essences will profoundly enrich our understanding of our own minds By plunging the reader into an extraordinary variety of colorful situations involving language thought and memory by revealing bit by bit the constantly churning cognitive mechanisms normally completely hidden from view and by discovering in them one central invariant core the incessant unconscious quest for strong analogical links to past experiences this book puts forth a radical and deeply surprising new vision of the act of thinking      **How to Be a #10 Parent** Dr. Jerry E.
