International Medical Guide for Ships ,1978 *International Medical Guide for Ships* Joint ILO-WHO Committee on the Health of Seafarers,1967 *The Maritime Labour Convention 2006: International Labour Law Redefined* Jennifer Lavelle,2013-12-13 With the Maritime Labour Convention now in force as of August 2013 the shipping industry is faced with

a new international convention that has comprehensive implications across all sectors This vital text provides timely analysis and thought provoking essays regarding the Convention s application and enforcement in practice Hailed as the Seafarer s Bill of Rights and the fourth pillar of the international regulatory regime for quality shipping the Maritime Labour Convention is set to significantly alter the playing field for key stakeholders This book offers diverse and interesting commentary in respect of the Convention s impact on core sectors of the shipping industry identifying both strengths and weaknesses of the Convention as well as potential hurdles that will need to be overcome Each chapter focuses on a different aspect of the Convention ranging from individual rights of the seafarer to challenges of flag State implementation Special attention is given to enforcement through examination of the innovative measures provided in the Convention itself along with discussion of domestic enforcement mechanisms in certain States Furthermore the book evaluates whether the Convention has filled existing gaps in maritime labour law resolved prior difficulties or created new problems This book expertly addresses issues of fundamental importance to national authorities shipping professionals and associations maritime lawyers and academics worldwide In memory of Richard Shaw Maritime Work Law Fundamentals: Responsible Shipowners, Reliable Seafarers Iliana Christodoulou-Varotsi, Dmitry A. Pentsov, 2007-10-31 The importance of international maritime labour law both as a component of international maritime law and in socio political and economic terms has been recognised by the IMO International Maritime Law Institute for a number of years Indeed the Institute has annually organised a course on maritime labour law with the participation of inter alia the International Maritime Organization the International Labour Organization the International Transport Workers Federation and the German Shipowners Association It was therefore a great pleasure when the authors invited me to introduce their forthcoming monograph on Maritime Work Law Fundamentals Responsible Shipowners Reliable Seafarers As the title suggests a fundamental challenge of this branch of international maritime law is to achieve a balance between the interests of the two main stakeholders Institutionally the effort to achieve this balance dates back a number of decades with its genesis mainly found in the work of the International Labour Organization It has to be said that whilst this effort achieved great progress it has led to a haphazard plethora of legal instruments **International Organizations and the Law of the Sea 1986** Netherlands Institute for the Law of the Sea, 1988-10 **International Travel and Health** World Health Organization, 2009 Looks at the main health risks for travelers around the world with information on environmental health risks injuries and violence infectious diseases vaccines and malaria **International medical guide for ships**, 1967 **Maritime Labour Conventions and Recommendations** International Labour Office, 1998 This publication contains 30 conventions 23 recommendations and one protocol dealing with the conditions of employment of seafarers adopted by the International Labour Conference It also contains the provisions of the instruments relating to fishing dock work and inland navigation International Labour Conventions and Recommendations International Labour Organisation, 1996 This compilation provides the full text of international labour Conventions Recommendations and

Protocols adopted by the International Labour Conference from its first session in 1919 until the present day in three volumes 1919 1951 1952 1976 and 1977 to the present These texts constitute internationally agreed standards of good practice in labour matters many of which have been used as a model for labour legislation and social policy throughout the world

Maritime Labour Convention the International Labour Organization, 2022-06-13 The Maritime Labour Convention is a comprehensive framework aimed at ensuring decent working and living conditions for seafarers around the globe This pivotal document crafted by the International Labour Organization ILO encapsulates a wealth of standards concerning maritime labour rights hygiene safety and accommodation at sea With a blend of legal rigor and accessible language the Convention serves as both a normative text and a practical guide for compliance emphasizing the importance of global standards within the maritime industry in an ever evolving economic context The International Labour Organization founded in 1919 has long been at the forefront of advocating for fair treatment in the workplace With its expertise in addressing the unique challenges faced by workers in various sectors the ILO sought to address the often overlooked plight of seafarers Through extensive research collaboration with maritime unions employers and governments the ILO produced this Convention not only to standardize labour conditions but to affirm the dignity and rights of those who operate in one of the world's most hazardous professions I highly recommend the Maritime Labour Convention to policymakers maritime professionals and scholars alike as it not only elucidates the regulations but also serves as a vital tool for promoting social justice in the maritime domain This Convention is essential reading for anyone interested in maritime law labour rights and the future of seafaring professions
