Internet Safety Report Article:

Cyberbullying through the New Media Peter K. Smith, Georges Steffgen, 2013-12-04 Cyberbullying is one of the darker and more troubling aspects to the growing accessibility of new media technologies Children in developed countries engage with cyberspace at younger and younger ages and the use of the internet as a means to bully and harass has been greeted with alarm by educationalists parents the media and governments This important new book is the result of a four year international collaboration funded by the EU to better understand how we can cope and confront cyberbullying and how new media technologies can be used to actually support the victims of such abuse The articles initially define the historical and theoretical context to cyberbullying before examining key issues involved in managing this pervasive phenomenon Coverage includes The definition and measurement of cyberbullying The legal challenges in tackling cyberbullying across a number of international contexts The role of mobile phone companies and Internet service providers in monitoring and prevention How the media frame and present the issue and how that influences our understanding How victims can cope with the effects of cyberbullying and the guidelines and advice provided in different countries How cyber bullying can continue from school into further education and the strategies that can be used to prevent it The ways in which accessing youth voice or maximising the contribution of young people themselves to the research process can enhance our understanding The book concludes with practical guidance to help confront the trauma that cyberbullying can cause It will be a valuable resource for researchers students policy makers and administrators with an interest in how children and young people are rendered vulnerable to bullying and harassment through a variety of online channels

Cyberbullying and E-safety Adrienne Katz, 2012-07-15 This book offers the tools to tackle cyberbullying and improve e safety education It covers different forms of cyberbullying and its impacts who is vulnerable how it can be prevented and how to respond It incorporates young people s views drawing on survey responses of 8 000 young people and advocates their involvement in e safety education

[Children, Young People and Online Harms](#) Emily Setty, Faith Gordon, Emma Nottingham, 2024-02-23 This book presents research conducted with children and young people about online harms with a UK focus while aiming to stimulate comparative analyses of other countries too While the chapters vary in how data driven they are each will explore conceptualisations of online harm children and young people s experiences of online harms and their perspectives on interventions to educate about and address online harms While the UK government claimed in 2019 to be introducing tough new measures to make the UK the safest place to be

online it has been noted that there may be a limited capacity for formal legislation to address the complexities of contemporary digital life for children and young people instead tackling online harms has to be part of a broader agenda and must account for the diverse and socially contingent nature of children's and young people's experiences online as evidenced by extensive research undertaken with children and young people With the finalisation of legislation surrounding online harms in the UK imminent the objective of this collection is to shape the implementation of policy in practice settings To support practice development the book offers vignette style pieces that will describe examples of policy and practice models and how these models can support children's and young people's active participation in understanding online harms As a result of this the findings of this book will minimise the disparity between the practice policy and research through speaking to the interface between these fields in the UK context
