Media Heterotopias Hye Jean Chung,2018-02-22 In Media Heterotopias Hye Jean Chung challenges the widespread tendency among audiences and critics to disregard the material conditions of digital film production Drawing on interviews with directors producers special effects supervisors and other film industry workers Chung traces how the rhetorical and visual emphasis on seamlessness masks the social political and economic realities of global filmmaking and digital labor In films such as Avatar 2009 Interstellar 2014 and The Host 2006 which combine live action footage with CGI to create new hybrid environments filmmaking techniques and seamless digital effects allow the globally dispersed labor involved to go unnoticed by audiences Chung adapts Foucault s notion of heterotopic spaces to foreground this labor and to theorize cinematic space as a textured multilayered assemblage in which filmmaking occurs in transnational collaborations that depend upon the global movement of bodies resources images and commodities Acknowledging cinema s increasingly digitized and globalized workflow Chung reconnects digitally constructed and composited imagery with the reality of production spaces and laboring bodies to highlight the political social ethical and aesthetic stakes in recognizing the materiality of collaborative filmmaking

Narrative Instability Stefan Schubert,2019-11-15 This book introduces the concept of narrative instability in order to make visible a new trend in contemporary US popular culture

to analyze this trend's poetics and to scrutinize its textual politics. It identifies those texts as narratively unstable that consciously frustrate and obfuscate the process of narrative understanding and comprehension, challenging their audiences to reconstruct what happened in a text's plot, who its characters are, which of its diegetic worlds are real, or how narrative information is communicated in the first place. Despite, or rather exactly because of their confusing and destabilizing tendencies, such texts have attained mainstream commercial popularity in recent years across a variety of media, most prominently in films, video games, and television series. Focusing on three clusters of instability that form around identities, realities, and textualities, the book argues that narratively unstable texts encourage their audiences to engage with the narrative constructedness of their universes; that narratively unstable texts encourage their audiences to engage with the narrative constructedness of their universes; that narrative instability embodies a new facet of popular culture that it takes place and can only be understood transmedially; and that its textual politics, particularly, speak to white, male, middle-class Americans.

Science Fiction and The Abolition of Man Mark J. Boone, Kevin C. Neece, 2016-12-13. The Abolition of Man, C. S. Lewis's masterpiece in ethics and the philosophy of science, warns of the danger of combining modern moral skepticism with the technological pursuit of human desires. The end result is the final destruction of human nature. From Brave New World to Star Trek, from steampunk to starships, science fiction film has considered from nearly every conceivable angle the same nexus of morality, technology, and humanity of which C. S. Lewis wrote. As a result, science fiction film has unintentionally given us stunning depictions of Lewis's terrifying vision of the future. In *Science Fiction Film and the Abolition of Man*, scholars of religion, philosophy, literature, and film explore the connections between sci-fi film and the three parts of Lewis's book: how sci-fi portrays Men without Chests, incapable of responding properly to moral good; how it teaches the Tao, or The Way; and how it portrays The Abolition of Man.

Thinking Is Authorized! Nash Khatri,2007-09-06 This is intended to be a thought provoking book that does not favor one religion over another or a non believer over a believer It is not about good versus evil or foolish versus wise Rather it is a philosophical and concept oriented work that contains a variety of perspectives that may not have been considered before or may have been taken for granted It is meant to promote self determination of what we believe regarding nature life God the future death prayer and the afterlife since the popularity of a belief does not unquestionably convert that belief into truth While not necessarily trying to do the thinking for others this book attempts to raise awareness and jumpstart our understanding of these concepts from an objective viewpoint
