

Go to the PHET site by searching for "phet Gases Intro". Run the HTML simulator by pressing the Play button. Answer the following questions. Here is the link: https://phet.colorado.edu/en/simulations/gases-intro?sim_gases-intro_en.html

Directions for INTRO-

1. After opening the website above, click on the **INTRO** box.
2. To add a gas to the container, move the air pump handle up and down, three or four times.
 - a. After each of the following changes, describe what happens to the air pressure reading, that you see in the gauge in the upper right corner of the container.
 - i. Move the toggle switch on the "Heat/Cool" bucket below the container UP, indicating an increase in temperature.
As the temp increases, the molecules should move more quickly, colliding more often and **INCREASING THE PRESSURE**
 - ii. Predict what would happen if you had cooled the temp.
As the temp decreases, the molecules should move more slowly, colliding less often and **DECREASING THE PRESSURE**
 - iii. Now move the handle at the top of the container to the left, briefly, and close again. You have allowed some gas to escape.
As the # of gas particles decreases, the molecules should collide less often and **DECREASE THE PRESSURE**
 - iv. Now move the handle, to the left of the container, towards the right. After you describe the change in the pressure reading, what did you just do to the volume of the container?
As the volume decreases, the molecules should collide more often and **INCREASE THE PRESSURE**
 - v. Predict what would happen to the pressure if you increase the volume of the container. Try it.
As the volume increases, the molecules should collide less often and **DECREASE THE PRESSURE**
3. Now move your cursor to the bottom of the page and click on the **LAWS** box. Once open, move the air pump handle up and down again to add gas to your container.
4. To simulate one of the gas laws, in the box off to the right that says **HOLD CONSTANT**, click on only **temperature**.
 - a. What is the pressure in your container? **[answers may vary]**
 - b. At this setting, with the temp constant, and without changing the number of gas molecules in the container, what two variables could be changed?
PRESSURE & VOLUME
 - c. What gas law focuses on those two variables?
BOYLE'S LAW
 - d. Make a change to one of these variables and identify the resulting impact on the other variable. **[answers may vary]**

Intro To Gases Quest Answer Key

Russ Colson ,Mary Colson

Intro To Gases Quest Answer Key:

Agricultural Greenhouse Gas Emissions: Problems and Solutions Nirmali Bordoloi, Kuldeep Baudh, K.K.

Baruah, 2024-12-23 This book collects information on greenhouse gas GHG emissions especially from the agro ecosystems It highlights the GHG emission mitigation measures using environmentally viable and cost effective technologies The title deals with the evaluation of the emission of GHGs from different agriculture sources estimates the emission trends analyzes the affecting drivers and assesses the feasible and suitable mitigation options for local farmers Agricultural activities including land clearing crop cultivation fertilizer application irrigation pattern animal husbandry and fisheries have a significant impact on GHG production and emissions The application of excess amount of inorganic fertilizer to increase the crop production may also boost the emissions of GHGs from agricultural fields Therefore it is urgent to concurrently quantify the fluxes of GHGs improve understanding of gaseous emissions from different agricultural sources and to develop mitigation strategies to reduce the future climate chaos This book is of interest to the farmers horticulturists scientists ecologists and a valuable source of reference to the relevant researchers and students in the region Also the book serves as additional reading material for undergraduate and graduate students of environmental science agriculture animal husbandry ecology and soil science

Easy English Rahul Kumar, This book has been prepared chapter wise on the basis of questions asked in English in various competitive exams It is very useful for candidates which preparing competition exams like Bank PO Clerk MBA SSC MAT LIC GIC RBI and others competitive Examinations

Gas Age, 1919 Includes summaries of proceedings and addresses of annual meetings of various gas associations L C set includes an index to these proceedings 1884 1902 issued as a supplement to Progressive age Feb 15 1910
