The term Philosophy signifies the adoration for knowledge. In a wide sense, philosophy is an action people attempt when they try to comprehend essential truths concerning their welfare and also the world and the link they have to the world and each other. Socrates believed that many people do value their wealth, bodies and reputation more than their souls. The mission that Socrates was sent to undertake of caring for the souls extended to the Athens. He argues that the City of Athens was a gift from God so as he can enhance the city. Without philosophical request, the popular government gets to be stagnant and careless, in threat of hurting itself as well as other people. The last thing that demonstrates that Socrates was a philosopher is through the concept of unexamined life. Socrates after he was convicted and a life sentence was applied to him, he tells the court that he will never maintain silence as unexamined life is not a good life for the human beings. Therefore, Socrates believed that we are supposed to defend our lives and maintain those views that dictate what a meaning life should be. The reason for the analyzed life is to reflect upon our ordinary inspirations and values and to in this way ask into what genuine worth, assuming any, they have.
