Research evaluation metrics Das, Anup Kumar, 2015-04-27 Traducción parcial de la Introducción En la actualidad la evaluación de las investigaciones es una cuestión que se está replanteando en todo el mundo En algunos casos los trabajos de investigación están generando resultados muy buenos en la mayoría de los casos los resultados son mediocres y en algunos casos negativos Por todo esto la evaluación de los resultados de la investigación se convierte en una condición sine qua non Cuando el número de investigadores eran menos eran los propios colegas de profesión quienes evaluaban la investigación Con el paso del tiempo el número de investigadores aumentó las áreas de investigación proliferaron los resultados de la investigación se multiplicaron La tendencia continuó y después de la Segunda Guerra Mundial la investigación comenzó a crecer exponencialmente Hoy en día incluso en una estimación moderada hay alrededor de más de un millón de investigadores y producen más de dos millones de trabajos de investigación y otros documentos por año En este contexto la evaluación de la investigación es una cuestión de primera importancia Para cualquier promoción acreditación premio y beca puede haber decenas o cientos de nominados De entre estos seleccionar el mejor candidato es una cuestión difícil de determinar Las evaluaciones inter pares en muchos casos están demostrando ser subjetivas En 1963 se crea Science Citation Index SCI que cubre la literatura científica desde 1961 Unos años después Eugene Garfield fundador del SCI preparó una lista de los 50 autores científicos más citados basándose en las citas que recibía el trabajo de un autor por parte de los trabajos de otros colegas de investigación El documento titulado Pueden predecirse los ganadores del Premio Nobel Fue publicado en 1968 Garfield y Malin 1968 En el siguiente año es decir 1969 dos científicos que figuran en la lista por ejemplo Derek H.R. Barton y Murray Gell Mann recibieron el codiciado premio Esto reivindicó la utilidad del análisis de citas Cada año varios científicos pertenecientes al campo de la Física Química Fisiología y Medicina reciben el Premio Nobel De esta manera el análisis de citas se convirtió en una herramienta útil Sin embargo el análisis de citas siempre tuvo críticas y múltiples fallas Incluso Garfield comentó El uso del análisis de citas de los trabajos de evaluación es una tarea difícil Existen muchas posibilidades de error Garfield 1983 Para la evaluación de la investigación se necesitaban algunos otros indicadores El análisis de citas junto con la revisión por pares garantiza el mejor juicio en innumerables casos Pero se necesita algo que sea más exacto La llegada de la World Wide Web WWW brindó la oportunidad pues un buen número de indicadores se están generando a partir de los datos disponibles en la WWW Trad. Julio Alonso Arvalo Univ. Salamanca

Open Access and the Future of Scholarly

Communication Kevin L. Smith, Katherine A. Dickson, 2016-10-05 It is impossible to imagine the future of academic libraries without an extensive consideration of open access the removal of price and permission barriers from scholarly research online As textbook and journal subscription prices continue to rise improvements in technology make online dissemination of scholarship less expensive and faculty recognize the practical and philosophical appeal of making their work available to wider audiences As a consequence libraries have begun to consider a wide variety of open access flavors and business

models These new possibilities have significant impact on both library services and collection policies and the call for new skills within library staffing Volume 9 of the series *Creating the 21st Century Academic Library* is the first of two addressing the topic of open access in academic libraries and focuses on policy and infrastructure for libraries that wish to provide leadership on their campus in the transition to more open forms of scholarship Chapters in the book discuss how to make the case for open access on campus as well as the political and policy implications of libraries that themselves want to become publishing entities Infrastructure issues are also addressed including metadata standards and research management services Also considered here is how interlibrary loan preservation and the library's role in providing textbooks support the concept of open access It is hoped that this volume and the series in general will be a valuable and exciting addition to the discussions and planning surrounding the future directions services and careers in the 21st century academic library

Online Searching Karen Markey, 2019-01-30 *Online Searching* is your complete guide to becoming a superstar searcher wielding advanced searching features strategies and tactics for answering questions on any topic under the sun as well as finding answers in trusted quality sources

Journal of the National Cancer Institute, 2007 Each issue is packed with extensive news about important cancer related science policy politics and people Plus there are editorials and reviews by experts in the field book reviews and commentary on timely topics

Introducing Communication Research Donald Treadwell, Andrea Davis, 2019-07-30 *Introducing Communication Research* Paths of Inquiry teaches students the basics of communication research in an accessible manner by using interesting real world examples engaging application exercises and up to date resources Best selling author Donald Treadwell and new co author Andrea Davis guide readers through the process of conducting communication research and presenting findings for scholarly professional news media and web audiences The Fourth Edition continues to emphasize the Internet and social media as topics of and tools for communication research and incorporates new content on online methodologies qualitative research critical methodologies and ethics

Handbook of Big Data Technologies Albert Y. Zomaya, Sherif Sakr, 2017-02-25 This handbook offers comprehensive coverage of recent advancements in Big Data technologies and related paradigms Chapters are authored by international leading experts in the field and have been reviewed and revised for maximum reader value The volume consists of twenty five chapters organized into four main parts Part one covers the fundamental concepts of Big Data technologies including data curation mechanisms data models storage models programming models and programming platforms It also dives into the details of implementing Big SQL query engines and big stream processing systems Part Two focuses on the semantic aspects of Big Data management including data integration and exploratory ad hoc analysis in addition to structured querying and pattern matching techniques Part Three presents a comprehensive overview of large scale graph processing It covers the most recent research in large scale graph processing platforms introducing several scalable graph querying and mining mechanisms in domains such as social networks Part Four details novel applications that have been made possible by the

rapid emergence of Big Data technologies such as Internet of Things IOT Cognitive Computing and SCADA Systems All parts of the book discuss open research problems including potential opportunities that have arisen from the rapid progress of Big Data technologies and the associated increasing requirements of application domains Designed for researchers IT professionals and graduate students this book is a timely contribution to the growing Big Data field Big Data has been recognized as one of leading emerging technologies that will have a major contribution and impact on the various fields of science and various aspects of the human society over the coming decades Therefore the content in this book will be an essential tool to help readers understand the development and future of the field

Science under siege Peter Banks, Daniel Lunney, Chris Dickman, 2012-11-01 On Saturday 29 November 2008 the Royal Zoological Society of NSW held a forum with the theme of Science under siege As the RZS is a zoological society zoology under threat became the secondary theme and the basis for selecting speakers This book records that forum with the papers developed for this book as the written word from the spoken presentations Papers that were presented as posters are included as are the edited plenary sessions which featured questions from the floor with answers and comments encouraged from anyone in the forum We were delighted that Mark Horstman from ABC Catalyst was willing to replace his peripatetic colleague Paul Willis who was nonetheless very happy to write the foreword There is a place for such skilled science communicators we need more of them and scientists at the lab bench or in the field or exploring computer models or those that have now taken a job in the policy world need to stay in touch with them Some might say that the title Science under siege seems a bit extreme but we invite you to examine the evidence as presented in this book What follows is an edited version of the introductory material that advertised the forum The title looks dramatic but if you ask yourself is anything killing the science in your area of interest you might be surprised that you come up with a point or two Then ask a wider set of questions such as are there any pressures that preclude people from doing good zoology do either political budgetary constraints impact on your field is science in the media a subject that influences the outcome of your work are there economic impediments to careers in zoology is the education mix in Australia right for this new century are the best researchers becoming full time administrators or the converse the poor researchers becoming the administrators can you place the Australian situation in an international context are there reduced opportunities for human interactions with the natural world is the virtual world killing reality and what are your predictions of the future To deal with such issues the Royal Zoological Society of NSW has structured the day to emphasize a range of themes beginning with identifying the issues including those that are persistent and those that are emerging and encompassing palpable hits to science Direct and indirect hits to science include such matters as the withdrawal of funding subversion of science death by 1000 cuts redirection of funding to fashion issues and using the name of science to justify things that are really not justifiable The name of science is being dragged down We need to confront the ever present problem of ignoring the scientifically accurate for the politically correct This raises such

questions as to whether basic skills in biology are not being acquired because of public concern based on extreme animal rights propaganda Good science is not optional but what can be done if you are under siege The answers include understanding the philosophy of science the legal perspective and asking what scientists are or should be doing Audience participation will be a central part of this forum The plenary sessions will address questions raised by the speakers and the posters and debate issues and consider options for future directions It is widely known that it is hard to pull a major paper together on this theme but so many scientists know of at least one matter that they would like to draw to public attention So short contributions are included Listen to the speakers present some overarching themes or compelling case studies contribute to the debate on the day then examine your stance on a variety of these subjects to see whether the day changes your view of this often cryptic aspect of zoology As editors we wish to acknowledge the skills of the referees all papers were refereed by two peers and the patience of the authors for what has been a long gap between the date of the forum and this publication By the end of 2008 the Royal Zoological Society of NSW along with everyone else was caught by the GFC Global Financial Crisis and we simply had to extend the length of the queue for publication We also reassessed our mode of publication The Council of the Society voted to publish this production as an ebook as well as a short print run for formal library deposit and other essential matters The ebook is open access to enhance the reach of the papers and the ideas At the same time the Royal Zoological Society of NSW signed a contract for a more international mode of access of the publications of the Society and papers are now available via Metapress <http://rzsnsw.metapress.com> Science remains under siege in our view and now we have been alerted to the range of issues it becomes easier to spot the small irritating closing of options that collectively amount to a denial of science and its relegation to an optional way of looking at the world During production of this book this matter became obvious on a number of fronts which led us to invite the paper by Rosie Cooney and colleagues to defend their science of kangaroo conservation and commercial harvesting from an attack on the science We also saw that this issue of science under siege needs more airing and the Royal Zoological Society of NSW is planning its forum for the end of 2012 to take up another strand of this theme by capitalizing on the lifelong insights of scientists under the rubric of grumpy scientists an ecological conscience of a nation This idea in fact derives directly from the suggestions in the plenary sessions by Nick Holmes and Charley Krebs We are also concerned for young scientists with science under siege manifesting often in a failure to create permanent careers for science graduates that advance science itself and zoology in particular from flourishing and identifying problems and finding solutions If we want to conserve the native fauna of Australia then Australian zoologists will have to be key team members We contend that to put science under siege and zoology under threat we not only further imperil our native wildlife but also the careers of the small band of specialists that can see the issues find the problems implement solutions and evaluate the outcomes In short science under siege is not a light matter and no one in this forum thought so Read on form an opinion and speak up and publish your thoughts your examples and your solutions

Informed is best Amy Brown, 2019 From the moment you share the news that you are pregnant or have a new baby it feels like everyone becomes an expert Did you see that headline Did you hear that story on TV Have you heard the latest about what they say is best In a world overflowing with information telling you what is best for you and your baby making decisions can feel overwhelming Who do you trust Who is telling the truth And how do you know if what they are saying is right for you How By becoming your own expert in sorting the media spin and politics from the actual facts and data This isn't a book that is going to tell you which decisions to make or that there is ever one right answer It is not going to tell you that the same thing is always best for everyone Instead this is a guide to help you evaluate information and evidence to decide what is right for you your body and your baby In three main parts it will firstly open your eyes to how information is shared in the media and how this can affect our thinking and decision making Next it will help you spot who is funding leading and promoting research and how this can affect the content of what is shared Finally it will talk you through reading understanding and evaluating evidence for yourself across topics in pregnancy birth and caring for babies You ll learn how to spot weaknesses in methods used how to determine the real risk for you and your baby and how wider context and other factors can influence what research means for you Information is power Making your own decisions that are right for you is empowering *Informed is best*

While this might not be the Journals Impact Factor Search full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Journals Impact Factor Search eBooks, including some popular titles.

FAQs About Journals Impact Factor Search Books

What is a Journals Impact Factor Search PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Journals Impact Factor Search PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Journals Impact Factor Search PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Journals Impact Factor Search PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobat's export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Journals Impact Factor Search PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
