June 2013 Gateway Science Ocr

Clemens Wendtner

June 2013 Gateway Science Ocr:

Systems Design for Remote Healthcare Koushik Maharatna, Silvio Bonfiglio, 2013-11-13 This book provides a multidisciplinary overview of the design and implementation of systems for remote patient monitoring and healthcare. Readers are guided step by step through the components of such a system and shown how they could be integrated in a coherent framework for deployment in practice. The authors explain planning from subsystem design to complete integration and deployment given particular application constraints. Readers will benefit from descriptions of the clinical requirements underpinning the entire application scenario, physiological parameter sensing techniques, information processing approaches and overall application dependent system integration. Each chapter ends with a discussion of practical design challenges and two case studies are included to provide practical examples and design methods for two remote healthcare systems with different needs.

Gateway Science for OCR David Acaster, 2006 **OCR Gateway Science**, 2006 **Gateway Science** Harcourt Education, **Gateway Science** Pauline Anning, 2007-03-02 Aims to mirror the layout of Gateway Science OCR specification.
