maker is a painful process and believe me not an easy one especially if you don't know what you need. There are lots of types of coffee makers and grinders and they have lots of specifications. Some specifications are similar but named differently due to the patent of the technology used. I've helped thousands of people to guide them to find the right coffee maker and grinder that fits their needs. Most of the annoying issues appear while using. Because you never thought these scenarios would happen before buying your coffee maker. Let me give you an example. Most people don't care about the water tank removability option on espresso or filter coffee machines. If you plan to put your coffee maker on a kitchen countertop and there is a kitchen cabinet on top of it, an unremovable tank might be a problem for you. You need to pull the coffee maker every time to pour water into it. This is called experience and I am sharing lots of real life experiences with you in this book. Starting with Moka Pot, PourOver, French Press, Chemex v60 and continue with manual semi automatic and fully automatic espresso makers, filter coffee machines, grinders and Turkish Coffee. I believe you will learn lots of things when you finish the book.
