The Contemporary Writer and Their Suicide Josefa Ros Velasco, 2023-07-05 This volume is the continuation of the book *Suicide in Modern Literature* edited by Josefa Ros Velasco. Considering the positive reception of this book, Ros Velasco launches the second part entitled *The Contemporary Writer and their Suicide*. This time leading representatives of various disciplines analyze the literary, philosophical and biographical works of contemporary writers worldwide who attempted to commit suicide or achieved their goal, looking for covert and overt clues about their intentions in their writings. This book aims to continue shedding light on the social and structural causes that lead to suicide and on the suicidal mind, but also to show that people assiduous to writing usually reflect their intentions to commit suicide in their writings to explain how these frequently veiled intentions can be revealed and interpreted and to highlight the potential of artistic, philosophical and autobiographical writing as a tool to detect suicidal ideation and prevent its consummation in vulnerable people. This book analyzes several case studies and their allusions to their contexts and the socio-structural and environmental violence and pressures they suffered, expressions of their will and agency, feelings of dislocation between the individual reality and existential alienation and literary styles, writing techniques and metaphorical language. *PEGIDA and New Right-Wing Populism in Germany* Hans Vorländer, Maik Herold, Steven Schäller, 2018-03-08 This book provides the first systematic and comparative analysis of the German right-wing populist protest movement PEGIDA. It offers an in-depth reconstruction of the movement's historical development, its organisational structure and its programmatic orientation. It depicts the protestors and their motivations, reactions in politics, media and society and PEGIDA's European network. The volume presents and compares the results of scientific surveys among PEGIDA participants and brings them into the context of long-time studies on political culture in Germany, representing a comprehensive study of the emergence of contemporary right-wing populist movements. The book will be of interest to researchers, academics and students focusing on comparative politics, right-wing populism, protest movements in western democracies and political culture in Germany as well as journalists, political educators and policy makers. *A Global History of Execution and the Criminal Corpse* Richard Ward, 2015-09-27 Through studies of beheaded Irish traitors, smugglers hung in chains on the English coast, suicides subjected to the surgeon's knife in Dresden and the burial of executed Nazi war criminals, this volume provides a fresh perspective on the history of capital punishment. The chapters 'Introduction', 'A Global History of Execution and the Criminal Corpse' and 'The Gibbet in the Landscape: Locating the Criminal Corpse in Mid-Eighteenth Century England' are open access under a CC BY 4.0 license. *Tod und Selbstmord in Russland* I. L. Polotovskai[a], 2008 Dieses Buch behandelt das vielschichtige Phänomen des Selbstmordes in seiner geschichtlichen Entwicklung. Insbesondere wird die erst im 20. Jahrhundert entstandene Beziehung zwischen Suizidologie und Thanatologie komplexen Wissenschaften von Selbstmord und Tod analysiert. Hierzu geht auch eine Einschätzung des Niveaus der Informationsversorgung über das Sachgebiet Suizid. Es werden ca. 30 Bibliographien

Stearns,2020-10-13 The Routledge History of Death Since 1800 looks at how death has been treated and dealt with in modern history the history of the past 250 years in a global context through a mix of definite often quantifiable changes and a complex qualitative assessment of the subject The book is divided into three parts with the first considering major trends in death history and identifying widespread patterns of change and continuity in the material and cultural features of death since 1800 The second part turns to specifically regional experiences and the third offers more specialized chapters on key topics in the modern history of death Historical findings and debates feed directly into a current and prospective assessment of death as many societies transition into patterns of ageing that will further alter the death experience and challenge modern reactions Thus a final chapter probes this topic by way of introducing the links between historical experience and current trajectories ensuring that the book gives the reader a framework for assessing the ongoing process as well as an understanding of the past Global in focus and linking death to a variety of major developments in modern global history the
