Driving Quality in Informatics:

Fulfilling the Promise K.L. Courtney,A. Kuo,O. Shabestari,2015-02-12 Although the data in healthcare comes from and relates to patients it has generally been the clinician and not the patient who has been seen as the end user of health information or health information technology This seems set to change though as the evolution of new online tools and mobile applications has led to the growth of a grass roots effort from patients to change their role and involvement in their own health management This book presents papers from the Information Technology and Communications in Health conference ITCH 2015 held in Victoria Canada in February 2015 The theme of this conference is patient centered care and not only were contributors asked to consider the role and voice of the patient but patients themselves were invited to contribute papers describing their experiences in healthcare and their use of their own data The papers included here reflect not only informatics innovations in the field but also explore how to involve patients in the design process implementation and long term use of health information systems and will be of interest to researchers health practitioners and patients alike

The Palgrave Handbook of Male Psychology and Mental Health John A. Barry,Roger Kingerlee,Martin Seager,Luke Sullivan,2019-03-01 This Handbook represents the first concerted effort to understand male mental health in a way that facilitates a positive step forward in both theory and treatment An alarming number of men experience serious mental health issues as demonstrated by high rates of suicide and violent offending Despite these problems the study of male psychology has either been overlooked or viewed as a problem of defective masculinity This handbook brings together experts from across the world to discuss men s mental health from prenatal development through childhood adolescence and fatherhood Men and masculinity are explored from multiple perspectives including evolutionary cross cultural cognitive biological developmental and existential viewpoints with a focus on practical suggestions and demonstrations of successful clinical work with men Throughout chapters question existing models of understanding and treating men s mental health and explore new approaches theories and interventions This definitive handbook encapsulates a new wave of positive theory and practice in the field of male psychology and will be of great value to professionals academics and those working with males through the lifespan in any sector related to male mental health and wellbeing China as a Twenty-First Century Naval Power

Michael A McDevitt,2020-10-15 Xi Jinping has made his ambitions for the People s Liberation Army PLA perfectly clear there is no mystery what he wants first that China should become a great maritime power and secondly that the PLA become a world class armed force by 2050 He wants this latter objective to be largely completed by 2035 China as a Twenty First Century Naval Power focuses on China s navy and how it is being transformed to satisfy the world class goal Beginning with an exploration of why China is seeking to become such a major maritime power author Michael McDevitt first explores the strategic rationale behind Xi s two objectives China s reliance on foreign trade and overseas interests such as China s Belt and Road strategy In turn this has created concerns within the senior levels of China s military about the vulnerability of its

overseas interests and maritime life lines is a major theme McDevitt dubs this China's sea lane anxiety and traces how this has required the PLA Navy to evolve from a near seas focused navy to one that has global reach a blue water navy He details how quickly this transformation has taken place thanks to a patient step by step approach and abundant funding The more than 10 years of anti piracy patrols in the far reaches of the Indian Ocean has acted as a learning curve accelerator to blue water status McDevitt then explores the PLA Navy's role in the South China Sea and the Indian Ocean He provides a detailed assessment of what the PLAN will be expected to do if Beijing chooses to attack Taiwan potentially triggering combat with America's first responders in East Asia especially the U S Seventh Fleet and U S Fifth Air Force He conducts a close exploration of how the PLA Navy fits into China's campaign plan aimed at keeping reinforcing U S forces at arm's length what the Pentagon calls anti access and area denial A2 AD if war has broken out over Taiwan or because of attacks on U S allies and friends that live in the shadow of China McDevitt does not know how Xi defines world class but the evidence from the past 15 years of building a blue water force has already made the PLA Navy the second largest globally capable navy in the world This book concludes with a forecast of what Xi's vision of a world class navy might look like in the next fifteen years when the 2035 deadline is reached
