Maher,2017-05-18 The languages of the world can be seen and heard in cities and towns forests and isolated settlements as well as on the internet and in international organizations like the UN or the EU How did the world acquire so many languages Why can't we all speak one language like English or Esperanto And what makes a person bilingual Multilingualism language diversity in society is a perfect expression of human plurality About 6 500 7 000 languages are spoken written and signed throughout the linguistic landscape of the world by people who communicate in more than one language at work or in the family or community Many origin myths like Babel called it a punishment but multilingualism makes us who we are and plays a large part of our sense of belonging Languages are instruments for interacting with the cultural environment and their ecology is complex They can die Tasmanian or decline then revive Manx and Hawaiian reconstitute from older forms modern Hebrew gain new status Catalan and Maori or become autonomous national languages Croatian Languages can even play a supportive and symbolic role as some territories pursue autonomy or nationhood such as in the cases of Catalonia and Scotland In this Very Short Introduction John C Maher shows how multilingualism offers cultural diversity complex identities and alternative ways of doing and knowing to hybrid identities Increasing multilingualism is drastically changing our view of the value of language and our notion of the part language plays in national and cultural identities At the same time multilingualism can lead to social and political conflict unequal power relations issues of multiculturalism and discussions over national or official languages with struggles over language rights of local and indigenous communities Considering multilingualism in the context of globalization Maher also looks at the fate of many endangered languages as they disappear from the world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Sociolinguistics: A Very Short Introduction* John Edwards,2013-07-11 Sociolinguistics deals with the

social life of language language in its sociocultural context It is a branch of linguistics that looks less at the shape or sound of words morphology or phonology and more at how our words and sentences are influenced by the society around us for instance how the accent or the dialect we use has been shaped by where we come from or which social class we belong to In this Very Short Introduction John Edwards offers the most up to date brief overview available of sociolinguistics with side trips into the sociology of language and psycholinguistics He considers such topics as the different social evaluations of languages and dialects the loaded significance of names and the importance of politically driven language planning and policy The relationship between language and gender sexist language the language of poverty and the intertwining of language and religion are also dealt with here Edwards stresses that while linguists see all dialects as equally valid in the wider world powerful attitudes have always placed language varieties in social hierarchies The author also looks at language more broadly examining the ways in which languages rise or fall the attempts to revive flagging or endangered varieties the reasons why some languages came to dominate others and the special dynamics that affect contact between big and small languages In both its role as our most powerful tool of communication and as the most immediate symbolic marker of human affiliation language is pre eminently a social phenomenon This compact volume offers an invaluable introduction to this vital aspect of language About the Series Oxford s Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

Literary Multilingualism in the Borderlands Marianna Deganutti, 2023-08-24 This book focuses on literary multilingualism and specifically on the challenging condition of writing in Trieste a key European borderland located at the intersection between the Latin Germanic and Slav civilisations By focusing on some of the most representative modern writers operating

in the area such as Italo Svevo Boris Pahor Claudio Magris and James Joyce this work offers a wide ranging discussion of multilingual practices deriving from the different language choices made by these writers Along with the most common manifest strategies such as code switching and hybridisations Deganutti highlights how Triestine writers found innovative latent practices to engage with multilingualism such as writing in an analogical way or exploiting internal linguistic stratifications Moreover she shows how they provided answers to the several linguistic cultural and even political challenges they were subjected to with the result of redefining linguistic boundaries that clearly separate different tongues This book will be of interest to graduate students researchers and academics interested in literary multilingualism in the fields of sociolinguistics borderland studies and comparative literature

Language Contact. Volume 1 Jeroen Darquennes, Joseph C. Salmons, Wim Vandebussche, 2019-08-19 Language Contact An International Handbook offers a comprehensive overview of current topics in research on language contact Broadly conceived it stands out for its international approach to language contact complementing the theoretical state of the art with examples from traditionally eclipsed areas and languages Next to a thorough introductory overview of the ground breaking methodological and theoretical approaches that shaped the discipline ample attention goes to the new and innovative insights on language contact in the 21st century Combining concise introductory contributions with in depth treatment of the most relevant case studies in the field the handbook speaks to both junior and established scholars

Translation, Mediation and Accessibility for Linguistic Minorities María Pilar Castillo Bernal, Marta Estévez Grossi, 2022-04-15 Linguistic minorities are everywhere and they are diverse In this context linguistic mediation activities whether translation or interpreting are key to the social inclusion of any kind of linguistic minority In most societies autochthonous linguistic minorities coexist with foreignspeaking minorities and people with or without disabilities who rely linguistically or medially adapted on texts to access information The present volume draws on this broad understanding of the concept of linguistic minorities to explore some of the newest developments in the field of translation studies and linguistics The articles are structured around three main axes accessibility of content especially audiovisual translation intralingual translation including initiatives regarding plain language easy to read and easy language mediation for minorities in a broader sense and language ideologies

Language Awareness in Multilingual Classrooms in Europe Christine Hélot, Carolien Frijns, Koen Gorp, Sven Sierens, 2018-04-23 Within the scope of today's globalisation linguistic diversity is a given fact of the world we live in In several educational contexts in Europe language awareness LA activities have been introduced with the objective to prepare pupils cognitively socially and or critically for life as multilingual open minded and or empowered citizens in a diverse world Despite previous research in various contexts the concept of LA remains problematic a generally accepted evidence based conceptualisation is missing This confronts both research and education with a challenge in order to develop LA activities implement them successfully in educational contexts and achieve the expected outcomes we should know what the concept stands for how it works and why we would

choose to implement it in classrooms or not This volume focuses on three apparent simple questions what how and why The first question what refers to the concept ual mess of LA The second question how refers to the implementation of LA activities in several educational contexts The third question why is a recurrent theme running through all the chapters and deals with a reflection on the way we deal un consciously with LA activities in education *The Invention of Multilingualism* David Gramling,2021-06-17 Multilingualism is a meaningful and capacious idea about human meaning making practice one with a promising tumultuous and flawed present and a future worth caring for in research and public life In this book David Gramling presents original new insights into the topical subject of multilingualism describing its powerful social economic and political discourses On one hand it is under acute pressure to bear the demands of new global supply chains profit margins and supranational unions and on the other it is under pressure to make way for what some consider to be better descriptors of linguistic practice such as translanguaging The book shows how multilingualism is usefully able to encompass complex divergent and sometimes opposing experiences and ideas in a wide array of planetary contexts fictitious and real political and social North and South colonial and decolonial individual and collective oppressive and liberatory embodied and prosthetic present and past *The Economics of Language Policy* Michele Gazzola,Bengt-Arne Wickstrom,2016-09-23 Insights from the application of economic theories and research methods to the management of linguistic diversity in an era of globalization In an era of globalization issues of language diversity have economic and political implications Transnational labor mobility trade social inclusion of migrants democracy in multilingual countries and companies international competitiveness all have a linguistic dimension yet economists in general do not include language as a variable in their research This volume demonstrates that the application of rigorous economic theories and research methods to issues of language policy yields valuable insights The contributors offer both theoretical and empirical analyses of such topics as the impact of language diversity on economic outcomes the distributive effects of policy regarding official languages the individual welfare consequences of bilingualism and the link between language and national identity Their research is based on data from countries including Canada India Kazakhstan and Indonesia and from the regions of Central America Europe and Sub Saharan Africa Theoretical models are explained intuitively for the nonspecialist The relationships among linguistic variables inequality and the economy are approached from different perspectives including economics sociolinguistics and political science For this reason the book offers a substantive contribution to interdisciplinary work on languages in society and language policy proposing a common framework for a shared research area Contributors Alisher Aldashev Katalin Buz si Ramon Caminal Alexander M Danzer Maxime Leblanc Desgagn Peter H Egger Ainhua Aparicio Fenoll Michele Gazzola Victor Ginsburgh Gilles Grenier Fran ois Grin Zoe Kuehn Andrea Lassmann Stephen May Serge Nadeau Suzanne Romaine Selma K Sonntag Stefan Sperlich Jos Ram n Uriarte Fran ois Vaillancourt Shlomo Weber Bengt Arne Wickstr m Lauren Zentz
