Resources for Teaching Elementary School Science National Science Resources Center of the National Academy of Sciences and the Smithsonian Institution, 1996-04-28 What activities might a teacher use to help children explore the life cycle of butterflies What does a science teacher need to conduct a leaf safari for students Where can children safely enjoy hands on experience with life in an estuary Selecting resources to teach elementary school science can be confusing and difficult but few decisions have greater impact on the effectiveness of science teaching Educators will find a wealth of information and expert guidance to meet this need in Resources for Teaching Elementary School Science A completely revised edition of the best selling resource guide Science for Children Resources for Teachers this new book is an annotated guide to hands on inquiry centered curriculum materials and sources of help in teaching science from kindergarten through sixth grade Companion volumes for middle and high school are planned The guide annotates about 350 curriculum packages describing the activities involved and what students learn Each annotation lists recommended grade levels accompanying materials and kits or suggested equipment and ordering information These 400 entries were reviewed by both educators and scientists to ensure that they are accurate and current and offer students the opportunity to Ask questions and find their own answers Experiment productively Develop patience persistence and confidence in their own ability to solve real problems The entries in the curriculum section are grouped by scientific area Life Science Earth Science Physical Science and Multidisciplinary and Applied Science and by type core materials supplementary materials and science activity books Additionally a section of references for teachers provides annotated listings of books about science and teaching directories and guides to science trade books and magazines that will help teachers enhance their students science education Resources for Teaching Elementary School Science also lists by region and state about 600 science centers museums and zoos where teachers can take students for interactive science experiences Annotations highlight almost 300 facilities that make significant efforts to help teachers Another section describes more than 100 organizations from which teachers can obtain more resources And a section on publishers and suppliers give names and addresses of sources for materials The guide will be invaluable to teachers principals administrators teacher trainers science curriculum specialists and advocates of hands on science teaching and it will be of interest to parent teacher organizations and parents Price List and Order Form for Science Instructional Materials, 1995 *NSTA Pathways to the Science Standards* Lawrence F. Lowery, 1996 Your job take lofty educational goals and achieve them in the real world Your best source of help The Pathways books one for elementary one for middle one for high school each brimming with practical guidance for putting the Standards into action Packed with specific teaching suggestions these books are great for both seasoned educators and novice teachers What's more all three Pathways books show you how to convert administrators school boards and other decision makers into strong allies for science education reform Each book has color photos plus a long list of recommended readings readily available in libraries

or fully browse able in the Resources for the Road CD ROM If you re like most teachers making the best use of limited prep time is a huge challenge Which is why we created this CD ROM it gathers complete text of the recommended readings for all three Pathways books into one spot The convenient format helps guarantee you ll be prepared while saving hours of research Readings are arranged by Standard and for easy use mirror the Pathways tables of contents

Writing in Science Betsy Rupp Fulwiler,2007 In the science classroom writing is much more than an exercise for students to document their steps during an investigation It s an important vehicle for describing their thought processes and the evidence that supports their reasoning Writing in Science shows you how to encourage students to grow as scientists and writers by moving beyond recounting how they completed their work and toward explaining what they learned Writing in Science shares proven methods for supporting improvement in how students write and think about science It provides practical guidelines for using science notebooks in grades K 5 to teach and assess science writing in a way that develops students conceptual knowledge and expository writing abilities as well as their thinking and scientific skills Betsy Rupp Fulwiler shares strategies for scaffolding and modeling higher level forms of scientific writing such as observations cause and effect comparisons data analysis and conclusions
