Googled The End Of The World As We Know It:

Googled Ken Auletta, 2010-10-26 The fullest account yet of the rise of one of the most profitable most powerful and oddest businesses the world has ever seen San Francisco Chronicle Just eleven years old Google has profoundly transformed the way we live and work we've all been Googled Esteemed media writer Ken Auletta uses the story of Google's rise to explore the future of media at large This book is based on the most extensive cooperation ever granted a journalist including access to closed door meetings and interviews with industry legends including Google founders Larry Page and Sergey Brin Marc Andreessen and media guru Coach Bill Campbell Auletta's unmatched analysis vivid details and rich anecdotes illuminate how the Google wave grew how it threatens to drown media institutions and where it's taking us next

Dogfight Fred Vogelstein, 2024-03-26 Behind the bitter rivalry between Apple and Google and how it's reshaping the way we think about technology The rise of smartphones and tablets has altered the industry of making computers At the center of this change are Apple and Google two companies whose philosophies leaders and commercial acumen have steamrolled the competition In the age of Android and the iPad these corporations are locked in a feud that will play out not just in the mobile marketplace but in the courts and on screens around the world Fred Vogelstein has reported on this rivalry for more than a decade and has rare access to its major players In *Dogfight* he takes us into the offices and board rooms where company dogma translates into ruthless business behind outsize personalities like Steve Jobs Apple's now lionized CEO and Eric Schmidt Google's executive chairman and inside the deals lawsuits and allegations that mold the way we communicate Apple and Google are poaching each other's employees They bid up the price of each other's acquisitions for spite and they forge alliances with major players like Facebook and Microsoft in pursuit of market dominance *Dogfight* reads like a novel vivid nonfiction with never before heard details This is more than a story about what devices will replace our cell phones and laptops It's about who will control the content on those devices and where that content will come from about the future of media and the Internet in Silicon Valley New York and Hollywood Democratic Empire Jim Cullen, 2016-03-24

However a quick review of regulations and market realities showed that there are virtually no foreign channels in the country and probably won't be for a while therefore the focus of this report is foreign television content entering China and to a slightly lesser degree Chinese content in global markets All video genres are discussed here with news and current affairs programming being a special case The first part of this report is a short introduction that includes the history of political influence and a review of existing regulations After this overview the industry and major players namely CCTV Xinhua News Corp Phoenix Disney Discovery Viacom are introduced and analyzed Here the issue of cultural imperialism or Western media influence is elaborated on Then the paper discusses the opportunities for international firms in the Chinese media market and the tension between Government control and market liberalisation A compelling answer to the question of who will dominate the domestic market in ten years is developed Finally the impact of Chinese content on international markets will be assessed within the same timeframe This is particularly interesting as media is not a traditional manufacturing industry and poses different challenges i.e. creative skills
