*Real-Time Student Assessment* Peggy L. Maki, 2023-07-03 This book challenges institutions and their programs to prioritize the use of chronological assessment results to benefit enrolled students in comparison with the more common practice of prolonged assessment cycles that generally benefit future students Peggy Maki advocates for real time assessment processes to identify patterns of underperformance and obstacles that require timely interventions for enrolled students to succeed In tandem with the sets of educational practices and policies that many institutions have now undertaken to close achievement and graduation rates across our diverse student demographics such as developing clear degree pathways she calls on all higher education providers if they are to remain relevant and meet their social purpose in our complex world to urgently recalibrate their assessment processes to focus on currently enrolled students progress towards achieving a high quality degree regardless of when they matriculate or re enter higher education She demonstrates that we already have sufficient examples and evidence to implement real time assessment of students as they progress through their studies She draws on the practices of specialized accredited programs such as those in the professions that assess in real time on the experiences of institutions that have adopted competency based education and on the affordances of technologies that now provide faculty and students with up to the minute diagnostics She identifies the six principles necessary to implement a real time assessment process illustrated by case studies of how campuses have operationalized them to advance students equitable progress towards achieving a high quality degree and demonstrates the benefits of real time assessment compared to more

future oriented processes among which is engaging students in reflecting on their own progress along their degree pathways She advocates for the use of well documented national outcomes based frameworks such as Liberal Education and America's Promise LEAP its aligned Valid Assessment of Learning in Undergraduate Education scoring rubrics VALUE the Degree Qualifications Profile and discipline based outcomes assessments to ensure high quality degrees that meet well defined standards and criteria She also identifies how data systems and technological developments help to monitor closely and respond in time to students patterns of underperformance The book is an urgent call for higher education to achieve the values of equity transparency and quality it espouses and ensure that all students graduate in a timely fashion with the competencies they need to be active and productive citizens *Handbook of Writing Research* , **2013 International Conference on Biological, Medical and Chemical Engineering (BMCE2013)** E. Integrating Human Factors Methods and Systems Thinking for Transport Analysis and Design Gemma J. M. Read, Vanessa Beanland, Michael G. Lenné, Neville A. Stanton, Paul M. Salmon, 2017-07-26 Governments and road safety agencies around the world have either introduced or are considering safe system strategies a long overdue acknowledgement that different elements of the road system contribute to road safety outcomes Human factors approaches have a leading role here in both conceptualising the road system as a complex sociotechnical system and in providing practical approaches to support true systems based countermeasures This book illustrates the potential for integrating contemporary systems based human factors methods with modern day driving assessment methods such as vehicle instrumentation and driving simulation to understand and enhance performance in modern day road transport systems The book outlines why a fundamental paradigm shift is needed in the way these systems are designed and operated and illustrates how a wide range of accepted human factors approaches can be applied successfully to road transport to revolutionise the countermeasure design process The practical illustrations of these human factors methods are applied to a long standing road and rail safety issue rail level crossings where the road and rail systems intersect The final chapter of the book highlights the utility of the human factors approach to reducing road trauma and discusses future applications of the approach      **Transferring Language Learning and Teaching From Face-to-Face to Online Settings** Giannikas, Christina Nicole, 2022-02-18 Language teaching programs have to respond to the need for distance education with teachers working to transfer their material onto online platforms and or learning management systems LMS even though their materials are not designed with distance learning in mind COVID 19 has led to English language teaching programs extending their teaching online for the unforeseeable future and trying to adjust the material to deliver high quality practice The education emergency caused by the COVID 19 pandemic has revealed that the world needs an education system that favors flexibility and resilience to equip educators to face unpredictable emergencies that may arise Transferring Language Learning and Teaching From Face to Face to Online

Settings examines the phenomenon of emergency language education further and provides an avenue for language teachers and researchers to share their experience thoughts and suggestions about transferring their material and teaching approaches from face to face f2f to an online setting The edited volume offers a platform for exploring how the field of language teaching is adapting to changes that have derived from the pandemic with a strong focus on the challenges faced and ways to move forward Covering topics such as digital pedagogy and teacher education it is ideal for instructors faculty trainers instructional designers administrators policymakers researchers teachers teacher educators and students
