Engaged Fatherhood for Men, Families and Gender Equality Marc Grau Grau,Mireia

las Heras Maestro, Hannah Riley Bowles, 2021-09-07 This aim of this open access book is to launch an international cross disciplinary conversation on fatherhood engagement By integrating perspective from three sectors Health Social Policy and Work in Organizations the book offers a novel perspective on the benefits of engaged fatherhood for men for families and for gender equality The chapters are crafted to engaged broad audiences including policy makers and organizational leaders healthcare practitioners and fellow scholars as well as families and their loved ones Heidegger and Literary Studies

Andrew Benjamin, 2023-11-23 Martin Heidegger is one of the most influential philosophers of the 20th Century and a key philosophical resource for literary critics Not only has he written about poetry generations of poets have engaged his writings And yet for Heidegger poetry and literature are separate An essential part of the project of this book therefore is to show how both the distinction and connection between literature and poetry is staged within Heidegger s thought It offers Heidegger s perspective on a range of key themes topics poets and writers including Poetry and Poetics Ancient Greek theatre and tragedies and then specifically Friedrich Hlderlin Thomas Mann Paul Celan Euripides and Sophocles As the Chapters comprising this book make clear Heidegger s work remains indispensable for any serious engagement with either literature or poetry today **The Dublin Review** ,1929 LIFE ,1959-10-19 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use *The Ethics of Democracy* Lucio Cortella, 2015-09-01 Demonstrates how the ethical underpinning of Hegel s political and social philosophy has relevance for contemporary democratic life The legal regulations and formal rules of democracy alone are not enough to hold a society together and govern its processes Yet the irreducible ethical pluralism that characterizes contemporary society seems to make it impossible to impose a single system of values as a source of social cohesion and identity reference In this book Lucio Cortella argues that Hegel s theory of ethical life can provide such a grounding and makes the case through an analysis of Hegel s central political work the Philosophy of Right Although Hegel did not support democratic political ends and wrote in a historical and cultural context far removed from the current liberal democratic scene Cortella maintains that the Hegelian theory of ethical life with its emphasis on securing a framework conducive to human freedom nevertheless offers a convincing response to the problem of the ethical uprootedness of contemporary democracy **In Search of the Sacred Book** Aníbal González, 2018-05-03 In Search of the Sacred Book studies the artistic incorporation of religious concepts such as prophecy eternity and the afterlife in the contemporary Latin American novel It departs from sociopolitical readings by noting the continued relevance of religion in Latin American life and culture despite modernity s powerful secularizing influence Analyzing Jorge Luis Borges s secularized narrative theology in his essays and short stories the book follows the development of the Latin American novel from the early twentieth century until today by examining the attempts of major novelists from Mar a Luisa Bombal Alejo

Carpentier and Juan Rulfo to Julio Cortázar Gabriel García Márquez and José Lezama Lima to sacralize the novel by incorporating traits present in the sacred texts of many religions It concludes with a view of the desacralization of the novel by more recent authors from Elena Poniatowska and Fernando Vallejo to Roberto Bolaño
