through a professional's eyes during adventure travel when things start sliding toward the edge. This insider memoir recounts ten sagas of extreme expeditions into Earth's most amazing wilderness regions to illustrate their realities: science allure history risks to life and limb and ultimate fates. Many of these regions have now vanished to progress. Others are imperiled. Only a few are protected. But all are or were places where exotic beauty and danger are inseparable. *The Rediscovery of the Wild* Peter H. Kahn, Jr., Patricia H. Hasbach, 2013-01-25. A compelling case for connecting with the wild for our psychological and physical well-being and to flourish as a species. We often enjoy the benefits of connecting with nearby domesticated nature: a city park, a backyard garden. But this book makes the provocative case for the necessity of connecting with wild nature: untamed, unmanaged, not encompassed, self-organizing and unencumbered and unmediated by technological artifice. We can love the wild. We can fear it. We are strengthened and nurtured by it. As a species, we came of age in a natural world far wilder than today's, and much of the need for wildness still exists within us, body and mind. *The Rediscovery of the Wild* considers ways to engage with the wild, protect it, and recover it for our psychological and physical well-being and to flourish as a species. The contributors offer a range of perspectives on the wild, discussing such topics as the evolutionary underpinnings of our need for the wild, the wild within, including the primal passions of sexuality and aggression, birding as a portal to wildness, children's fascination with wild animals, wildness and psychological healing, the shifting baseline of what we consider wild, and the true work of conservation.

A Life Well Lived Manfred F. R. Kets de Vries, 2023-12-13. Manfred Kets de Vries wears many hats: psychoanalyst, executive coach, consultant, management educator, researcher, writer, but he has noticed that whichever hat he is wearing, every question he is asked boils down to one thing: How can I live a well-lived life? Over many years of practice in all these disciplines, Professor Kets de Vries has realized the unsurpassed value of stories in tackling human dilemmas and providing answers to this question. The book is therefore one of the most important books he has written for coaches, students, leaders, managers, educators, or anyone seeking a more reflective text to guide them through the multitude of questions that we face in work and in life. He draws on a long literary tradition of the unexpected encounter with a wise other: fantastic or magical, think *The Little Prince*, *Alice's Adventures in Wonderland*, *The Once and Future King*, the *Harry Potter* novels, to animate an exploration of the deepest questions and concerns of human beings. He constructs an extended Socratic dialogue between his two selves: the first, a naïve traveler lost in the Siberian wilderness, and the second, a reflective avatar who comes to his aid. The avatar takes the form of a *kabouter*, a familiar figure in Dutch folklore whose counterpart can be found in different cultures around the world and throughout centuries of storytelling. Through stories, riddles, and puzzles, the *kabouter* challenges the traveler to question and reflect upon his life and values, guiding him and readers toward the insights that will help them achieve a life well-lived. *The Farmers' Advocate and Home Magazine*, 1911.
