5. What type of plans do people at the business level primarily undertake?
At this level, managers focus on determining how they are going to compete effectively in the market.
6. Why is forecasting critical to the planning process?
Forecasts are or can be made about virtually every critical element in the environment that managers believe could affect the organization or their area of responsibility
7. What is benchmarking and what role does it play in planning?
 - Benchmarking is the investigation of the best results among competitors and non-competitors and the practices that lead to those results
 - In terms of results, managers might assess competitors that have the highest revenue-to-employee ratio as a means of assessing productivity
 - Ex: Managers would then compare their own revenue-to-employee ratio to get an idea of where they stood relative
