Introducing Political Philosophy Dave Robinson, 2014-12-01 Essential illustrated guide to key ideas of political thought Philosophers have always asked fundamental and disturbing questions about politics Plato and Aristotle debated the merits of democracy The origins of society the state and government authority were issues addressed by Hobbes Rousseau Hegel Marx and many other philosophers Introducing Political Philosophy explains the central concepts of this intriguing branch of philosophy and presents the major political theorists from Plato to Foucault How did governments get started Why should they be obeyed Could we live without them How much power should they have Is freedom a right Which is the best form of government In the wake of consumerism and postmodernism our need for a better grasp of political ideas is greater than ever Dave Robinson's account of this complex subject is always clear informative and accompanied by the entertainingly inventive illustrations of Judy Groves

Introducing Anthropology Merryl Wyn-Davis, 2014-12-01 Anthropology originated as the study of primitive cultures But the notion of primitive exposes presumptions of civilized superiority and the right of the West to speak for less evolved others With the fall of Empire anthropology became suspect and was torn by dissension from within Did anthropology serve as a handmaiden to colonialism Is it a science created by racism to prove racism Can it aid communication between cultures or does it reinforce our differences Introducing Anthropology is a fascinating account of an uncertain human science seeking to transcend its unsavoury history It traces the evolution of anthropology from its genesis in Ancient Greece to its varied forms in contemporary times Anthropology's key concepts and methods are explained and we are presented with such big name anthropologists as Franz Boas Bronislaw Malinowski E E Evans Pritchard Margaret Mead and Claude Levi Strauss The new varieties of self critical and postmodern anthropologies are examined and the leading question of the impact of anthropology on non Western cultures is given centre stage Introducing Anthropology is lucid in its arguments its good humour supported by apt and witty illustrations This book offers a highly accessible invitation into anthropology

**Introducing Philosophy** Dave Robinson, Judy Groves, 2014-06-05 Philosophers have always enjoyed asking awkward and provocative questions such as What is the nature of reality What are human beings really like What is special about the human mind and consciousness Are we free to choose who we are and what we do Can we prove that God exists Can we be certain about anything at all What is truth Does language provide us with a true picture of the world How should we behave towards each other Do computers think Introducing Philosophy is a comprehensive graphic guide to the thinking of all the significant philosophers of the

Western world from Heraclitus to Derrida It examines and explains their key arguments and ideas without being obscure or solemn Lively and accessible it is the perfect introduction to philosophers and philosophical ideas for anyone coming to the subject for the first time     *Introducing Plato* Dave Robinson,2014-12-01 Introducing Plato begins by explaining how philosophers like Socrates and Pythagoras influenced Plato's thought It provides a clear account of Plato's puzzling theory of knowledge and explains how this theory then directed his provocative views on politics ethics and individual liberty It offers detailed critical commentaries on all of the key doctrines of Platonism especially the very odd theory of Forms and concludes by revealing how Plato's philosophy stimulated the work of important modern thinkers such as Karl Popper Martha Nussbaum and Jacques Derrida     *Introducing Lacan* Darian Leader,2014-12-01 Jacques Lacan is now regarded as a major psychoanalytical theorist alongside Freud and Jung although recognition has been delayed by fierce arguments over his ideas Written by a leading Lacanian analyst Introducing Lacan guides the reader through his innovations including his work on paranoia his addition of structural linguistics to Freudianism and his ideas on the infant mirror phase It also traces Lacan's influence in postmodern critical thinking on art literature philosophy and feminism This is the ideal introduction for anyone intrigued by Lacan's ideas but discouraged by the complexity of his writings     *Introducing Derrida* Jeff Collins,2014-12-01 Brilliant illustrated guide to the best known and most controversial continental philosopher of the latter 20th century Jacques Derrida is the most famous philosopher of the late 20th century Yet Derrida has undermined the rules of philosophy rejected its methods broken its procedures and contaminated it with literary styles of writing Derrida's philosophy is a puzzling array of oblique deviant and yet rigorous tactics for destabilizing texts meanings and identities Deconstruction as these strategies have been called is reviled and celebrated in equal measure Introducing Derrida introduces and explains his work taking us on an intellectual adventure that disturbs some of our most comfortable habits of thought     *Introducing Romanticism* Duncan Heath,2014-12-01 Philosophy art literature music and politics were all transformed in the turbulent period between the French Revolution of 1789 and the Communist Manifesto of 1848 This was the age of the Romantic revolution when modern attitudes to political and artistic freedom were born When we think of Romanticism flamboyant figures such as Byron or Shelley instantly spring to mind but what about Napoleon or Hegel Turner or Blake Wagner or Marx How was it that Romanticism could give birth to passionate individualism and chauvinistic nationalism at the same time How did it prefigure the totalitarian movements of the 20th century Duncan Heath and Judy Boreham answer these questions and provide a unique overview of the many interlocking strands of Romanticism focusing on the leading figures in Britain Germany France Italy Russia and America     *Introducing Aesthetics* Christopher Kul-Want,2014-12-01 What is beauty and what is truth These are some of the questions which aesthetics tries to answer In our everyday life we talk about the aesthetics of an artwork or a piece of design But aesthetics goes beyond the simple experience of art It is also a branch of philosophy concerned with the whole nature of experience itself explored through our perceptions feelings and emotions
