Is Yahoo An Internet Service Provider:

Secondary Liability of Internet Service Providers Graeme B. Dinwoodie, 2017-06-28 This book analyses the doctrinal structure and content of secondary liability rules that hold internet service providers liable for the conduct of others including the safe harbours or immunities of which they may take advantage and the range of remedies that can be secured against such providers Many such claims involve intellectual property infringement but the treatment extends beyond that field of law Because there are few formal international standards which govern the question of secondary liability comprehension of the international landscape requires treatment of a broad range of national approaches This book thus canvasses numerous jurisdictions across several continents but presents these comparative studies thematically to highlight evolving commonalities and trans border commercial practices that exist despite the lack of hard international law The analysis presented in this book allows exploration not only of contemporary debates about the appropriate policy levers through which to regulate intermediaries but also about the conceptual character of secondary liability rules **Net**

Neutrality or Net Neutering: Should Broadband Internet Services Be Regulated Thomas M. Lenard, Randolph J. May, 2006-09-13 Randolph J May and Thomas M Lenard The Progress 2 consumers are entitled to run applications and services of their choice 3 consumers are entitled to connect their choice of legal devices that do not harm the network and 4 consumers are entitled to competition among net work providers application and services providers and content providers

Internet Jurisdiction Law and Practice Julia Hörnle, 2021-01-07 From a technological standpoint geography is largely irrelevant Data flows through the internet without regard for political borders or territories Services communication and interaction can occur online between persons who may be in different countries Illegal activities like hacking cyberespionage propagating terrorist propaganda defamation revenge porn and illegal marketplaces may all be remotely targeted and accessed from various countries As such the internet has created an interesting and complex set of challenges for the concept of jurisdiction and conflicts of law This title takes a comparative approach covering the EU UK US Germany and China Broken into four parts this book delves into the notion of jurisdiction as it relates to the internet Part I focuses on the different meanings of the concept of jurisdiction from a legal and historical perspective and distinguishing between the different branches of government It will highlight the challenges created by the internet including social media and cloud computing Part II analyses criminal jurisdiction in regards to both jurisdictions in cybercrime cases and jurisdictional issues relating to criminal investigations access to the cloud and enforcement Part III examines jurisdiction and applicable law in civil and commercial matters such as e commerce B2B and B2C contracts torts typically occurring online and online defamation and privacy infringement Finally Part IV looks at regulatory jurisdiction examining the power of the executive whether an arm of government or independent regulator to apply and enforce national law It will look at aspects like the provision of online audio visual media services and online gambling services both of which are heavily regulated but which

can be easily provided remotely from different jurisdictions The book concludes by analysing how the concept of jurisdiction should be adapted to ensure the rule of law by nation states and prevent international conflicts between states This title gives a comprehensive look at the complicated subject of internet jurisdiction essential for all dealing with jurisdictions in the modern age
