James S. Donnelly Jr, 2017-07-06 First published in 1975 Using estate records local newspapers and parliamentary papers
this book focuses upon two central and interrelated subjects the rural economy and the land question from the perspective of
Cork Ireland's southernmost country The author examines the chief responses of Cork landlords tenant farmers and
labourers to the enormous difficulties besetting them after 1815 He shows how the great famine of the late 1840s was in
many ways an economic and social watershed because it rapidly accelerated certain previous trends and reversed the
direction of others He also rejects the conventional view of the land war of the 1880s arguing that in Cork it was essentially a
revolution of rising expectations in which tenant farmers struggled to preserve their substantial material gains since 1850 by
using the weapons of agrarian trade unionism civil disobedience and unprecedented violence This title will be of interest to
students of rural history and historical geography **The National Provisioner**, 1914 Efficient Marketing for

certain aspects of it have been analyzed in considerable detail A body of literature exists for example on the various phases of
retailing and advertising It is only in the last decade or two however that much attention has been given to the study of
wholesalers and wholesaling The field occupies an important place in the economy and in this study of the development of
the wholesaler in the United States Bill Reid Moeckel provides the historical basis for understanding the present nature of
the wholesaling business with pointers for the future of the wholesaler and the wider retail economy in which it resides First
