The second edition has been expanded to incorporate coverage of significant issues that have emerged in recent years, including growing tensions in the region over maritime territory and historical issues, competing regional free trade agreement negotiations, the impact of the global financial crisis on financial cooperation and engagement with global governance, Obama's pivot to Asia and developments in US relations with East Asia, the influence of new technology and social media on micro-level regional relations, and the growing importance of new diplomacy issues such as energy security, climate change, food security, and international migration. Key pedagogical features include end-of-chapter study questions, case studies that discuss topical issues with study questions, and useful tables and figures which illustrate key regional trends in East Asia.
