Hofer, 2006 This book looks at the origins and growth of television through the pages of TV Guide and covers the complete run of this American icon from the first guides in 1953 to the last issue in guide format on October 9, 2005. Lentz, 1997 Since Hopalong Cassidy and the Lone Ranger blazed their first trails on television in 1949, Westerns have been the genre of choice for 180 series. Some, Gunsmoke, Bonanza and Maverick, for example, were classics; others, such as 26 Men and Shotgun Slade, were quickly forgotten. From Adventures of Briscoe County through Zorro and Son, this comprehensive reference work covers all 180 Western series. Each entry opens with a listing of the broadcast history of the series, including original network, day and time. This is followed by a listing of the regular cast members and a brief premise of the series. The individual episodes are then covered with the title, original air date, leading guest stars and a brief synopsis given. An exhaustive index completes the work. *Family matters* Deborah A. Lawlor, Gita D. Mishra, 2009-04-02 Family based studies, including intergenerational, sibling and twin studies, are increasingly being used to explore life course epidemiology. However, there are issues relating to study design and the statistical analysis of family based studies that are still not well understood, and comprehending the underlying assumptions of these studies and drawing the inferences from them can be complex. This book provides the knowledge and skills required to design, analyse and correctly interpret family based studies. It explains what these studies can tell us about life course epidemiology, provides practical guidance on how to set up and maintain birth cohorts for completing family based studies in life course epidemiology, describes how to undertake appropriate statistical analyses of family based studies and correctly interpret results from these analyses, and provides examples that illustrate the ways in which family based studies can enhance our understanding of life course epidemiology. In addition, there is discussion of difficulties specific to setting up such studies in

low and middle income countries and issues relating to proxy informants where parents provide information on children and vice versa or siblings provide information about each other Examples of how family based studies have been used in understanding the life course epidemiology of cardiovascular disease mental health and reproductive health illustrate the applicability of the research to these areas but also more generally to the wider field of life course epidemiology *EW The Ultimate Guide to 90's TV* The Editors of Entertainment Weekly,2019-08-02 Entertainment Weekly Magazine presents The Ultimate Guide to 90 s TV **A Visitor's Guide to Mystic Falls** Red,Vee,2010-10-05 The Vampire Diaries the television series based on the iconic books by L J Smith has already managed to captivate millions of viewers with its unique mix of immortal romance and very human drama In A Visitor s Guide to Mystic Falls YA authors led by Red and Vee of premier Vampire Diaries resource Vampire Diaries net take a closer look at Mystic Falls its residents both alive and undead and its rich inescapable history Claudia Gray delves into the events of 1864 and how they ve shaped not just Mystic Falls but the success of the show itself Sarah Rees Brennan tells us what it takes for a girl to hold her own against a vampire boyfriend or two placing Elena squarely between fellow vampire daters Buffy and Bella Jennifer Lynn Barnes takes Mystic Falls to task for poor treatment of Caroline Forbes Jon Skovron examines the male female vampire dynamic in history and in The Vampire Diaries Plus a guide to the book series for tv fans looking to visit The Vampire Diaries literary inspiration and more Whether you re a new visitor or a long time fan you won t want to continue your tour of Mystic Falls without it **The Family Matter** Ralph D. Love and War Tom Digby, 2014-10-28 Ideas of masculinity and femininity become sharply defined in war reliant societies resulting in a presumed enmity between men and women This so called battle of the sexes is intensified by the use of misogyny to encourage men and boys to conform to the demands of masculinity These are among Tom Digby's fascinating insights shared in Love and War which describes the making and manipulation of gender in militaristic societies and the sweeping consequences for men and women in their personal romantic sexual and professional lives Drawing on cross cultural comparisons and examples from popular media including sports culture the rise of gonzo and bangbus pornography and internet trolls Digby describes how the hatred of women and the suppression of empathy are used to define masculinity thereby undermining relations between women and men sometimes even to the extent of violence Employing diverse philosophical methodologies he identifies the cultural elements that contribute to heterosexual antagonism such as an enduring faith in male force to solve problems the glorification of violent men who suppress caring emotions the devaluation of men's physical and emotional lives an imaginary gender binary male privilege premised on the subordination of women and the use of misogyny to encourage masculine behavior Digby tracks the collateral damage of this disabling misogyny in the lives of both men and women but ends on a hopeful note He ultimately finds the link between war and gender to be dissolving in many societies war is becoming slowly de gendered and gender is becoming slowly de militarized
