Busting the Mob James B. Jacobs, 1996-10 An examination of the forces and events that led to the most successful organized crime control initiatives in American history Since Prohibition the Mafia has captivated the media and indeed the American imagination From Al Capone to John Gotti organized crime bosses have achieved notoriety as anti heroes in popular culture In practice organized crime grew strong and wealthy by supplying illicit goods and services and by obtaining control over labor unions and key industries Despite or perhaps because of its power and high profile Cosa Nostra faced little opposition from law enforcement Yet in the last 15 years the very foundations of the mob have been shaken its bosses imprisoned its profits diminished and its influence badly weakened In this vivid and dramatic book James B Jacobs Christopher Panarella and Jay Worthington document the government s relentless attack on organized crime The authors present an overview of the forces and events that led in the 1980s to the most successful organized crime control initiatives in American history Enlisting trial testimony secretly taped conversations court documents and depositions they document five landmark cases representing the most important organized crime prosecutions of the modern era Teamsters Local 560 The Pizza Connection The Commission the International Teamsters and the prosecution of John Gotti **Rough Waters** Christine J. Walley, 2010-01-01 *Rough Waters* explores one of the most crucial problems of the contemporary era struggles over access to and use of the environment It combines insights from anthropology history and environmental studies mounting an interdisciplinary challenge to contemporary accounts of globalization The book focuses on Mafia Island Marine Park a national park in Tanzania that became the center of political conflict during its creation in the mid 1990s The park reflecting a new generation of internationally sponsored projects was designed to encourage environmental conservation as well as development Rather than excluding residents as had been common in East Africa s mainland wildlife parks Mafia Island was intended to represent a new type of national park that would encourage the participation of area residents and incorporate their ideas While the park had been described in the project s general management plan as for the people and by the people residents remained excluded from the most basic decisions made about the park The book details the day to day tensions and alliances that arose among Mafia residents Tanzanian government officials and representatives of international organizations as each group attempted to control and define the park Walley s analysis argues that a technocentric approach to conservation and development can work to the detriment of both poorer people and the environment It further suggests that the concept of the global may be inadequate for understanding this and other social dramas in the contemporary world *A Global Forum on Fighting Corruption*, 1999 **Noir in the North** Stacy Gillis, Gunnthorunn Gudmundsdottir, 2020-10-01 What is often termed Nordic Noir has dominated detective fiction film and television internationally for over two decades But what are the parameters of this genre both historically and geographically What is noirish and what is northern about Nordic noir The foreword and coda in this volume by two internationally

bestselling writers of crime fiction in the north Yrsa Sigurdardottir and Gunnar Staalesen speak to the social contract undertaken by writers of noir while the interview with the renowned crime writer Val McDermid adds nuance to our understanding of what it is to write noir in the North Divided into four sections Gender and Sexuality Space and Place Politics and Crime and Genre and Genealogy Noir in the North challenges the traditional critical histories of noir by investigating how it functions transnationally beyond the geographical borders of Scandinavia The essays in this book deepen our critical understanding of noir more generally by demonstrating for example Nordic noir's connection to fin de siècle literatures and to mid century interior design and by investigating the function of the state in crime fiction **Weaving the**

Past Susan Kellogg, 2005-09-02 Weaving the Past offers a comprehensive and interdisciplinary history of Latin America's indigenous women While the book concentrates on native women in Mesoamerica and the Andes it covers indigenous people in other parts of South and Central America including lowland peoples in and beyond Brazil and Afro indigenous peoples such as the Garifuna of Central America Drawing on primary and secondary sources it argues that change not continuity has been the norm for indigenous peoples whose resilience in the face of complex and long term patterns of cultural change is due in no small part to the roles actions and agency of women The book provides broad coverage of gender roles in native Latin America over many centuries drawing upon a range of evidence from archaeology anthropology religion and politics Primary and secondary sources include chronicles codices newspaper articles and monographic work on specific regions Arguing that Latin America's indigenous women were the critical force behind the more important events and processes of Latin America's history Kellogg interweaves the region's history of family sexual and labor history with the origins of women's power in prehispanic colonial and modern South and Central America Shying away from interpretations that treat women as house bound and passive the book instead emphasizes women's long history of performing labor being politically active and contributing to even supporting family and community well being *My Father The Mafia Boss* Gigliola Castania, Based

the Tiger Ole Nydahl, 1992 In 1969 Ole and Hannah Nydahl became the first Western students of H H the Karmapa the head of the Kagyu tradition of Yogis in Tibetan Buddhism After their years of practice in the Himalayas he authorized them to teach and start centers in his name They have continued this work ever since Riding the Tiger is the inside story of the development of Tibetan Buddhism in the West In his refreshingly unsentimental style Lama Ole shows all aspects of the work

With breathtaking intensity he highlights both healthy and unhealthy tendencies in the light of the Buddha's ultimate aim To bring about the fully developed beings whose every activity blesses the world **Forthcoming Books** Rose Arny,1990

Manitoba Politics and Government Paul Thomas,Curtis Brown,2010-09-01 Manitoba has always been a province in the middle geographically economically and culturally Lacking Quebec's cultural distinctiveness Ontario's traditional economic dominance or Alberta's combustible mix of prairie populism and oil wealth Manitoba appears to blend into the background of the Canadian family portrait But Manitoba has a distinct political culture one that has been overlooked in contemporary political studies Manitoba Politics and Government brings together the work of political scientists historians sociologists economists public servants and journalists to present a comprehensive analysis of the province's political life and its careful mutual fund model approach to economic and social policy that mirrors the steady and cautious nature of its citizens Moving beyond the Legislature the authors address contemporary social issues like poverty environmental stewardship gender equality health care and the province's growing Aboriginal population to reveal the evolution of public policy in the province They also examine the province's role at the intergovernmental and international level Manitoba Politics and Government is a rich and fascinating account of a province that strives for the centre for the delicate middle ground where individualism and collectivism overlap and where a multitude of different cultures and traditions create a highly balanced society

Restructuring Relations Rauna Kuokkanen,2019-03-01 Adopted in 2007 the UN Declaration on the Rights of Indigenous Peoples establishes self determination including free prior and informed consent as a foundational right and principle Self determination both individual and collective is among the most important and pressing issues for Indigenous women worldwide Yet Indigenous women's interests have been overlooked in the formulation of Indigenous self government and existing studies of Indigenous self government largely ignore issues of gender As such the current literature on Indigenous governance conceals patriarchal structures and power that create barriers for women to resources and participation in Indigenous societies Drawing on Indigenous and feminist political and legal theory as well as extensive participant interviews in Canada Greenland and Scandinavia this book argues that the current rights discourse and focus on Indigenous state relations is too limited in scope to convey the full meaning of self determination for Indigenous peoples The book conceptualizes self determination as a foundational value informed by the norm of integrity and suggests that Indigenous self determination cannot be achieved without restructuring all relations of domination nor can it be secured in the absence of gender justice As a foundational value self determination seeks to restructure all relations of domination not only hegemonic relations with the state Importantly it challenges the opposition between self determination and gender created and maintained by international law Indigenous political discourse and Indigenous institutions Restructuring relations of domination further entails examining the gender regimes present in existing Indigenous self government institutions interrogating the relationship between Indigenous self determination and gender violence and considering future

visions of Indigenous self determination such as repatriation of Indigenous governance and an independent statehood
