Fires of Faith Eamon Duffy,2010-10-26 The reign of Mary Tudor has been remembered as an era of sterile repression when a reactionary monarch launched a doomed attempt to reimpose Catholicism on an unwilling nation Above all the burning alive of more than 280 men and women for their religious beliefs seared the rule of Bloody Mary into the protestant imagination as an alien aberration in the onward and upward march of the English speaking peoples In this controversial reassessment the renowned reformation historian Eamon Duffy argues that Mary s regime was neither inept nor backward looking Led by the queen s cousin Cardinal Reginald Pole Mary s church dramatically reversed the religious revolution imposed under the child king Edward VI Inspired by the values of the European Counter Reformation the cardinal and the queen reinstated the papacy and launched an effective propaganda campaign through pulpit and press Even the most notorious aspect of the regime the burnings proved devastatingly effective Only the death of the childless queen and her cardinal on the same day in November 1558 brought the protestant Elizabeth to the throne thereby changing the course of English history *A General Pronouncing and Explanatory Dictionary of the English Language* Stephen Jones,1813 **A Thesaurus Dictionary of the English Language** Francis Andrew March,1906 *Text and Faith* TEMPO Publishing, THIS BOOK presents several articles from a process of contemplation on God while keeping in mind the words of Raimon Panikkar a discourse on God is a discourse that inevitably only completes itself again in a new silence And so if the discourse is to continue which is un avoidable and moreover necessary and the new silence is not or has not yet been achieved this means one has to try to explore various other already existing contemplations on God and faith Even though I do not belong to the camp of those who accept Heidegger s the God of the philoso phers I think philosophy is necessary to be employed here

Faith-based Radicalism Christiane Timmerman,2007 Terror attacks against Western symbols of power suicide terrorism in Chechnya or bombing of abortion clinics in the United States these are a few of the violent religious outbursts that the media never seem to stop broadcasting While these outbursts are mostly linked to Islamic extremism it should however be acknowledged that every religion has its own violent side Despite all the events the media are too prompt to show us it would be dishonest and insensible not to accept that every religion has also a potential for religious peace building and communal renewal How can it be explained then that religions sometimes react violently against the society surrounding them by trying to overthrow it while at some other times they willingly help and try to build a better world for everyone The University Centre Saint Ignatius Antwerp organised an interdisciplinary summer seminar in September 2005 and gathered senior scholars all experts in their own fields and junior scholars who will be the experts of tomorrow from all over the world to discuss these burning issues The seminar focused on miscellaneous topics all pointing towards the question of religion and society like literalism and the Holy texts the ambivalence of faith based radicalism the psychology of religion and terrorism nationalism and religion and religious social movements Publisher **An Essay toward the Amendment of the last**

Sartre on Sin Kate Kirkpatrick,2017-10-20 Sartre on Sin Between Being and Nothingness argues that Jean Paul Sartre s early anti humanist philosophy is indebted to the Christian doctrine of original sin On the standard reading Sartre s most fundamental and attractive idea is freedom he wished to demonstrate the existence of human freedom and did so by connecting consciousness with nothingness Focusing on Being and Nothingness Kate Kirkpatrick demonstrates that Sartre s concept of nothingness le n ant has a Christian genealogy which has been overlooked in philosophical and theological discussions of his work Previous scholars have noted the resemblance between Sartre s and Augustine s ontologies to name but one shared theme both thinkers describe the human as the being through which nothingness enters the world However there has been no previous in depth examination of this resemblance Using historical exegetical and conceptual methods Kirkpatrick demonstrates that Sartre s intellectual formation prior to his discovery of phenomenology included theological elements especially concerning the compatibility of freedom with sin and grace After outlining the French Augustinianisms by which Sartre s account of the human as between being and nothingness was informed Kirkpatrick offers a close reading of Being and Nothingness which shows that the psychological epistemological and ethical consequences of Sartre s le n ant closely resemble the consequences of its theological predecessor and that his account of freedom can be read as an anti theodicy Sartre on Sin illustrates that Sartre s insights are valuable resources for contemporary hamartiology
