

Adding interface elements

To be able to use the interface, you have to add an interface element to the interface. The necessary interface element for this is available in the Library window. You can find it in the folder: Interface elements. You need a Start button to let the scooter move.

- 1** In the *Library window*, select the folder **Interface Elements**
- 2** Select the subfolder **Dynamic Widgets**
- 3** Select **Action Button**
- 4** Drag **Action Button** from the *Library window* and drop it into the *interface*

Try it yourself

As you can see, you cannot stop the car (apart from closing the window). If you want to exercise modifying interfaces more, you can now add a stop-button to the interface.

Do not forget to save your work afterwards!
