

Activity Guide - Functions Make

Step 1 - Try the app

- Try many of the different options.
- Pay attention to what is happening on the screen when you move the slider or choose an item from the dropdown.
- When does the screen update?
- What happens if you choose lavender and Lucida Sans from the dropdowns? Try choosing lightgreen and moving the slider until you receive feedback.

Discuss with a Partner

- What does this app do? Let you write a quote, change the font, and the quote background color.
- What are the inputs? quote input, family font input, colors input, and font size.
- What are the outputs? Color output, quote output and size output
- How could a function be used in this app? When there is something repeated just call the function

Step 2 - Plan

Variables: Fill in the table below for each variable you'll need to create.

Variable Name	What the Variable Stores
color	the background color the user selects
fontFamily	the font type that user selects
fontSize	the font size that user selects
quote	The quote that users enter (write)

Conditionals: An if-else-if statement is used to check if certain options have been selected. Set up the conditional below using the variables you created above.

- Note: You can be creative here! Choose your own combinations and feedback messages.

```

if (color == "lavender" && fontFamily == "Lucida Sans" ){
    setText("feedbackOutput", "Great Combo!");
} else if ( color == "lightblue" && fontFamily == "Trebuchet" ){
    setText("feedbackOutput", "Looking good" );
} else {
    setText("feedbackOutput", "Nice design" );
}

```

Fogarty,2007-06-15 Help ensure your teaching success with these powerful professional tools In a quick reference format this second edition offers 10 high impact strategies to help new and experienced instructors succeed in the classroom The author has organized topics to give teachers the option of studying and growing together by discussing and applying one chapter each month Updated throughout this easy to use resource recommends ways to connect with a mentor and offers readings related film clips discussion questions and action steps for successful Curriculum and lesson design Assessment and rubrics construction Discipline and classroom management Communication with parents and more Human Investment Management Prabhakaran Paleri,2017-08-30 This book presents a thought provoking case for looking at human resource management from an entirely different perspective In the modern world organizations have to optimally manage resources to achieve the best results and the best way to do this is to identify humans as instruments of investment and not as resources Humans use resources in an activity Managing people as a subject was first studied as part of personnel management and became known as human resource management HRM in the early 80s However the basic principles remained largely unchanged The book argues that it is time that HRM is replaced by human investment management HIM where the entire approach of employee management in an organization shifts gears to human investment in activities In this approach no human is considered bad in relation to an organization if selected appropriately and trained well Everyone is productive though the returns may differ Humans can be invested in areas where they are best or can be trained to be the best according to various factors Unlike any other investment instruments humans value can be continuously upgraded for higher returns Thus the core of HIM is to maximize the return from each employee as an individual or as a member of the group with minimum expenditure and effort in him or her HIM can therefore reengineer and replace HRM slowly and steadily at the desired pace where maximum attention is paid to employee investment for improved results This is unlike HRM which primarily focuses on employee relations Turning around HRM to HIM will be the first step in inclusively aligning strategic human resource management with the overall human management As such HIM should be seen as a process by which the asset or capital value of individual humans can be increased by turning them into capital humans an entirely different outlook from the oft used term human capital *New Horizons in Learning English Ii Tm (decs)* , **Phagocytosis—past and future** Liana Bolis,2012-12-02 Phagocytosis Past and Future is a collection of contributions by investigators who met in the Province of Messina Sicily in October 1980 to

discuss the functions of phagocytic leukocytes in the host parasite relationship The topics discussed are largely in the areas of cell biology cellular immunology and biochemistry They ranged from aspects of cellular movement and the ingestion process per se to definition of substances that affect the function of phagocytic leukocytes and the nature of cidal mechanisms at the molecular level This volume is organized into six sections encompassing 33 chapters and begins with an overview of Ilya Ilich Metchnikoff s life as well as his scientific contributions particularly in the area of bacteriology and his research on mesodermal amoeboid cells The next chapters focus on the mechanism of phagocytosis with reference to aspects of cell membrane cell movement and ingestion The reader is methodically introduced to the biochemical aspects of phagocytosis from molecular modulations to energetics oxygen radicals and enzymes The discussion then shifts to macrophages their function in antigen recognition receptor mediated endocytosis in macrophage cell hybrids and the role of phagocytosis in macrophage activation The remaining chapters examine the cidal mechanisms of phagocytic leukocytes and aspects of inflammation This book will be of interest to scientists and researchers in fields such as biology biochemistry immunology pathology pharmacology and physiology
