## Business Organizations

### Lesson 1: Forms of Business Organizations

#### Review Questions

**Directions:** Read each main idea and complete the statements below. Refer to your textbook as you write the answers.

#### A. Sole Proprietorships

**Main Idea:** A sole proprietorship is a business owned and operated by a single individual or owner. Although you are your own boss, you also have total liability, and you may lack the skills needed to run a business successfully.

1. A sole proprietorship is not \_\_\_\_\_, so it is ready for business as soon as operations are set up, and the owner keeps all the \_\_\_\_\_.
2. A sole proprietorship is easy to \_\_\_\_\_, and it is \_\_\_\_\_, because the owner does not have to confer with or answer to anyone else before making a decision.
3. A sole proprietor does not have to pay separate business income \_\_\_\_\_, and can \_\_\_\_\_ close down the business.
4. A sole proprietor has unlimited \_\_\_\_\_ for his or her business, which means that he or she is fully responsible for all of the business's losses and debts. A sole proprietor may also have trouble raising needed \_\_\_\_\_.
5. Because of \_\_\_\_\_, the sole proprietorship may have trouble finding the employees it needs and carrying enough \_\_\_\_\_ to satisfy customers or to keep production flowing smoothly.

#### B. Partnerships

**Main Idea:** There are two types of partnerships—general and limited—and each has its own advantages and disadvantages as a business organization.

1. In a \_\_\_\_\_ partnership, all partners are responsible for the business's finances and \_\_\_\_\_.

The Interaction between Financial Stability and Financial Institutions: Some Reflections Käfer, Benjamin, 2016-12-16 The contribution of this dissertation is to investigate financial stability issues from three different perspectives illustrating that financial instability shows different characteristics over time among financial institutions and across financial activities Chapter 1 reviews the normative and positive monetary policy literature on Taylor rules which have been augmented with exchange rates asset prices credit or leverage and spreads In addition the chapter compares the development of these indicators for the core and the periphery of the Eurozone from 1999 with the introduction of the euro until 2013 Chapter 2 goes on to investigate the funding advantage that is provided to German Landesbanken by the joint liability scheme of the German Savings Banks Finance Group Chapter 3 investigates peer to peer P2P lending and shows that the changing role of soft information online platform default risk liquidity risk and underdeveloped online secondary markets and the institutionalization of P2P markets implies larger risks than traditional

banking Moreover P2P lending can be considered part of the shadow banking sector
