1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	None
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly gain access to rockets that were better. They would also have delivery of aid.	They might develop better a sense of internationalism, better for U.S. security than John F. Kennedy's "peace through strength" plan, planned program for removal of German (Soviet) missiles from
3. Would anyone disagree with this?	Not Eisenhower.	Others might be people worried over independence and other considerations
4. Would what the Americans asked make sense for the Soviets?	Yes, the governments could be stronger. There is no communist country.	Yes, American people were surprised and would not take a revolution like China.

2. Suppose the agreement simply is not being signed. Why?

There (would) be no money made either

It might be that the Americans are really serious

It would be wrong. The governments are not really going to build

It is possible it is not really true that the rockets are built
