Marris,1996-10-17 The outstanding moral problem of our time is the emergence of an underclass provoking both pity and an angry political backlash Robin Marris finds that a slowdown in growth is the root cause leading to a collapse of the labour

market for unskilled men in particular Fashionable solutions such as lower wages or welfare reform benefit those already well off and exacerbate growing income inequality He employs statistical sociological and psychological analysis and new developments in brain science to show how the creation of an open society with increased equality of opportunity risks creating an unnecessarily excessive meritocracy The solution is restoring national and international priority to the objective of growth If this fails damage limitation is essential We must learn to live with the welfare state
