

Start

At corner

Look again right blind spot,  
right mirror, ahead then out the  
back window.

Try to keep approx 1ft from the  
kerb at all times.

Note: at the apex of the corner  
you can go wider so long as you  
come back in as you reach the  
end of the corner.

Try not to allow your car to  
come in closer than 1ft from the  
kerb as this will help prevent  
hitting the kerb.

For the corner section, looking  
out the backseat left side window  
will give a guide to your progress  
and position.

Apex

When parallel  
with the new  
road, straighten  
up your front  
wheels.

Continue until  
approx 4 car  
lengths into the  
new road.

Do not go so wide  
that your car crosses  
over the centreline of  
the new road.

A good guide for  
the straight sections:  
while looking out the  
back window you  
will see that the kerb  
visually 'cuts' into  
the backseat, try to  
keep the kerb in this  
position.
