owners managers economists marketers computer engineers academicians scientists and researchers      *Revolutionizing Urban Development and Governance With Emerging Technologies* Al Maqousi, Ali,Almomani, Ammar,Aldweesh, Amjad,Alauthman, Mohammad,2025-04-17 Emerging technologies revolutionize urban development and governance offering innovative solutions to the complex challenges faced by modern cities From smart infrastructure and data driven decision making to the rise of artificial intelligence blockchain and the Internet of Things IoT these technologies transform how cities are planned built and managed Smart cities now leverage real time data to optimize traffic flow reduce energy consumption enhance public services and improve citizen engagement Blockchain enables transparent governance and secure transactions while AI assists in predictive modeling and urban planning As these technologies continue to advance they promise to create more sustainable efficient and resilient urban environments where governance is more responsive inclusive and capable *Revolutionizing Urban Development and Governance With Emerging Technologies* explores the dynamic and evolving domain of smart cities with a focus on strategies initiatives and methodologies for project assessment It emphasizes how emerging technologies such as blockchain and smart contracts revolutionize urban development by enhancing transparency efficiency and trust in urban governance and service delivery This book covers topics such as digital twins sensor technology and smart cities and is a useful resource for engineers policymakers urban developers academicians researchers and environmental scientists      *The Effects of Social Media Advertising in China* Changchun Xuan,2022-09-30 The book aims to evaluate social media users attitude towards social media advertising in mainland China By conducting a large scale national survey in China N 4 172 the author systematically and comprehensively examines factors that influence social media users attitude towards social media advertising Integrating the perspectives of sociology psychology communication and advertising the author discusses the influencing factors from the standpoints of consumers social media platforms and culture and the mechanisms among them Moreover this book demonstrates the heterogeneity among mainland Chinese consumers as well as their similarities and differences from American consumers The book appeals to scholars and postgraduate students in the fields of marketing and advertising and those advertising practitioners who are interested in the Chinese market      *Recovery Management in Business-to-Business Markets* Kristian Döscher,2014-04-14 The book is related to the handling of product and service failures in business to business markets The concept of recovery management embraces all activities of seller firms to effectively handle failure situations in order to restore customer satisfaction and attain customer retention Since prior research on recovery management has been mostly related to business to consumer B2C markets and business to business markets B2B reflect significantly different characteristics a context specific approach to handle product or service failures in B2B markets is required by researchers and practitioners alike Based on a profound qualitative and quantitative investigation Kristian Döscher derives the fundamental conceptual dimensions and discloses the relational consequences as well as the financial contributions of recovery management in B2B markets      *Entrepreneurship,*

Training, Education and Job Creation Magda Hewitt, 2010-08-01 The papers included in this book were taken from the proceedings of the University of Johannesburg Faculty of Management Department of Entrepreneurship 2010 Entrepreneurship Training Education and Job Creation Conference These papers address some of the issues in terms of entrepreneurship training education and job creation      **Construction Dispute Research** Sai On Cheung, 2014-07-08

There are three specific purposes of Construction Dispute Research First this volume aims to summarise studies on construction dispute Second apart from the theoretical constructs where appropriate empirical tests are also included This approach serves to go beyond the commonly used anecdotal approach for the subject matters Third it is the sincere hope of the authors that this book will help shaping research agenda of construction dispute The studies are mostly framed from a management perspective drawing on methods and concepts in contract law economics psychology and management science The book has twenty chapters that are arranged in four parts covering conceptualisation avoidance negotiation and mediation Part 1 is devoted for dispute conceptualisation A building is only as strong as its foundation Thus it is no better start to study construction dispute by conceptualisation The theme of Part 2 is dispute avoidance The conventional wisdom of prevention is better than cure seems can be applied to all problems As far as construction dispute is concerned equitable risk allocation and trust are the two most commonly accepted avoidance strategies Part 3 focuses on negotiation that is the gateway to resolution as almost all disputes are negotiated first before the service of other mechanisms Negotiation is sometimes described as an art because settlement may not be obtained solely from legal and rational approaches Part 3 discusses the behavioral dimensions of construction dispute negotiation Part 4 deals with Mediation a form of assisted negotiation Specially the skill of the mediators in facilitating settlement the interrelationships among dispute sources mediator tactics and mediation outcomes are explored The studies presented in Construction Dispute Research collectively demonstrate holistic approach in dispute management Each chapter can be read as a study on its own Practitioners will find the book a handy reference in dispute management and resolution Students would find the book useful in explaining in details the causes of dispute the processes to resolve them The research design and empirical approaches are particularly useful to students in construction management architectural surveying and civil engineering programs      Handbook of Research on Challenges for Human Resource Management in the COVID-19 Era Figueiredo, Paula Cristina Nunes, Tomé, Eduardo Luís de Campos Soares, Rouco, José Carlos Dias, 2022-06-10 The importance of people in organizations has been growing in the organizational environment over the last decades Digital transformation artificial intelligence and sustainability have already reinforced the role of people as a differentiating element for the success and survival of organizations These phenomena alone are already challenging for people There is a consensus that the world of work as we knew before the pandemic will not return Human resource management HRM practices must prepare organizations for the future of work The Handbook of Research on Challenges for Human Resource Management in the COVID 19 Era analyzes

state of the art HRM in a digital transformation context and investigates the factors that promote more learning and development dynamics in organizational contexts It also evaluates the impact of HRM policies on individuals organizations and societies Covering topics such as corporate social responsibility job satisfaction and electronic performance monitoring this major reference work is a crucial resource for leaders from public and private companies human resource professionals specialists students and educators of higher education researchers and academicians
