Mutual Help Groups Organization And Development Sage Human Services Guides:

Mutual Help Groups Phyllis R. Silverman, 1980 will be welcomed by the experienced practitioner as well as the new professional and volunteer. The book is written clearly and provides a valuable service to all those involved by explicitly delineating the roles and functions of the volunteer members of the mutual help group, the professional and the supporting agency, and by highlighting differences between autonomous mutual help groups and those supported by social service organizations. *The Journal of Contemporary Social Work* October 1981

Understanding Social Networks Lambert Maguire, 1983 The book is a readable guide to networking theory, research, and practice. Maguire discusses contemporary evidence that social support networks, generally made up of nonprofessionals, can substitute for or complement professional care. The author has an excellent grasp of the huge academic literature on this subject, combined with an easy-to-follow style. *British Journal of Social Work* Volume 14, 1984

Developing Casework Skills James A. Pippin, 1980-11 A practical guide to casework in public social service agencies. Pippin begins by discussing the different worlds of client and helper, outlines the ingredients for a productive relationship, and gives a detailed method for a task-focused approach. Crises, long-standing conditions, unusual client behaviour, and the burnout of the helper's own interest are other topics.

Rape, Incest, and Sexual Harassment Nancy L. Carlson, Kathryn Quina, 1989-12-11 A working guide to the treatment of survivors of sexual victimization. This book treats rape, incest, and harassment as related forms of sexual abuse. It reviews present literature on the long-term effects of sexual assault and considers the services and support that survivors require. Covering a wide range of issues and treatment approaches, focus is placed on the older adolescent and adult. The phases of recovery following sexual abuse are described together with the type of assistance most appropriate at each phase. The authors provide numerous case studies and emphasize the individuality of both survivor and response. This guide should be used by both professional and layperson to help the sexually abused transcend feelings of victimization. Rape, Incest, and Sexual Harassment discusses the issues raised by victimization. It then deals with the immediate aftermath of sexual abuse, focusing on crisis intervention and advocacy with respect to emotional, medical, and legal needs. One section devoted to counselors working with long-term effects on survivors matches interventions to the individual client's needs and offers models for counseling frameworks. Special needs are also addressed. The book concludes with a look at the larger social problems associated with abuse and violence.

Ferman, Roger Manela, David Rogers, 1980-11 An amalgam of concepts from social science literature and ideas suggested by agency personnel and company officials are presented in this Human Service Guide The authors specify what is considered good practice in developing agency company relationships and suggest alternative reasons and techniques for developing such relationships *Understanding Self-help/mutual Aid* Thomasina Borkman, 1999

Self help groups have encountered fierce criticism as places where individuals join to share personal problems and to engage in therapeutic intervention without the aid of skilled professionals. These groups have flourished since the 1970s and continue to serve more people than professional therapy. Yet these groups have been criticized as fostering a culture of whiners and victims and not using professional help as needed. Thomasina Jo Borkman debunks this commonly held assessment and also examines the reasons for these groups' enduring popularity since the 1960s: more people attend these meetings word than see professional therapists. What accounts for their success and popularity? *Understanding Self Help Mutual Aid Groups* is the first book to describe three stages of individual and group evolution that is part of this organization's very structure; it also reconceptualizes participants' interactions with professionals. The group as a whole, Borkman posits, draws on the life experiences of its members to foster nurturing support and transformation through a circle of sharing. Groups create more positive and less stigmatizing meanings of the members' problems than is available from professionals or lay folk culture.
