Emotional Settings in Early Modern Pedagogical Culture Judith Owens,2020-05-30 This book is notable for bringing together humanist schooling and familial instruction under the banner of emotions and for studying seminal works of early modern literature within this new analytical context It thus furnishes unique ways to think about two closely interrelated moral imperatives shaping boys into civil subjects and fashioning heroic agency and selfhood in literature In tracing the emotional dynamics of the humanist classroom this book shows just how thoroughly school could accommodate resistance to authority and foster unruly boys In gauging the emotional pressures at work in filial relationships it shows how profoundly sons could experience patriarchal authority as provisional negotiable or damaging In turning to Shakespeare s Hamlet Spenser s Prince Arthur and Sidney s Arcadian heroes Emotional Settings highlights the ways in which the respective emotional and moral imperatives of home and school could bring conflicting pressures to bear in the formation of heroic agency and at what cost Engaging and accessible this book will appeal to scholars interested in early modern literature pedagogy histories of emotion and histories of the family as well as to graduate students and advanced undergraduate students in these fields

The Homeric Doloneia Christos C. Tsagalis,2024-09-03 The Doloneia is the most controversial book of the Iliad its authenticity having been doubted since antiquity Modern scholars are divided between those who regard it as a major interpolation by a later poet who was trained in the technique of epic composition and those who see it as the earliest manifestation of the very ancient theme of lochos However the first claim assumes the stylistic homogeneity of book 10 while the second sweeps out dictional and thematic difficulties by attributing them to the theme of ambush that is weakly represented in the extant corpus of archaic Greek epic By applying sophisticated interpretive tools such as intratextual association intertextual allusion and oral

neoanalysis this book maintains that Iliad 10 is thematically consonant with the rest of the Iliad and that it has evolved from an earlier Iliadic version after the addition of the Rhesus episode which did not circulate as an independent composition but formed part of lost oral epic poetry with cyclic features that focused on the events after the death of Achilles **The Ages of Homer** Jane B. StarBriefs 2001 ,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions
