Properties of covalent compounds:

- low melting and boiling points
- Many covalent compounds are volatile liquids or gases.

EXCERPT FROM THE BOOK The second season of *Modern Family* pictures the family developing further with more cross-over between couples, sibling arguments, and comical documentation of growing pains. The producers and writers do an excellent job of keeping the kids in line with the development you would see out of a TV show rather than have them stuck in a certain age as happens with other shows. First and foremost, Alex and Haley begin showing the occasional sisterly bond as rough as it may be at times. In one episode, Haley coaches Alex through a new friendship, and in another through trying to get her first kiss. Though both instances end in disaster, Haley means well. It becomes clear that while Alex generally holds disdain for her sister, Haley can advise her on things like friends and boys. The sisterly fighting is still ever present with Alex trying to expose Haley's fake job and with her comments about her sister's lackluster academic career. Haley also won't let Alex borrow clothes, and when Alex wears a sweater and accidentally ruins it, all hell breaks loose.

Dancing Women Usha Iyer, 2020-10-02

Dancing Women Choreographing Corporeal Histories of Hindi Cinema, an ambitious study of two of South Asia's most popular cultural forms, cinema and dance, historicizes and theorizes the material and cultural production of film dance, a staple attraction of popular Hindi cinema. It explores how the dynamic figurations of the body wrought by cinematic dance forms from the 1930s to the 1990s produce unique constructions of gender, sexuality, stardom, and spectacle. By charting discursive shifts through figurations of dancer-actresses, their publicly performed movements, private training, and the cinematic and extra-diegetic narratives woven around their dancing bodies, the book considers the women's question via new mobilities corporeally realized by dancing women. Some of the central figures animating this corporeal history are Azurie Sadhona Bose, Vyjayanthimala, Helen Waheeda Rehman, Madhuri Dixit, and Saroj Khan, whose performance histories fold and intersect with those of other dancing women, including devadasis and tawaifs, Eurasian actresses, oriental dancers, vamps, choreographers, and backup dancers. Through a material history of the labor of producing on-screen dance, theoretical frameworks that emphasize collaboration, such as the choreomusicking body and dance musicalization, aesthetic approaches to embodiment drawing on treatises like the *Natya Sastra* and the *Abhinaya Darpana*, and formal analyses of cine-choreographic techno-spectacles, *Dancing Women* offers a variegated, textured history of cinema dance and music. Tracing the gestural genealogies of film dance produces a very different narrative of Bombay cinema and indeed of South Asian cultural modernities by way of a corporeal history co-choreographed by a network of remarkable dancing women.
