Black Enterprise ,1998-12 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance **The Essence of the Music Business** Mika Karhumaa,2021-05-25 The fully revised Second Edition is here New examples have been added to better reflect the present time Also as a main focus strategic thinking the ability to create long term plans and how to prepare for this in everyday activities are also present in this book Understanding the importance of strategy is the basis for rational advancement In the music business strategies are not always perceptible They are multi layered long lasting but also instantaneously effective The ultimate goal often transpires along the way In order to understand tactics one has to read between the lines The reason why different pre conditions and industrial expectations must always be taken into account is due to conflicts between artistic and economic goals An artist s progress often depends on their interest groups comfort to these aspects and is about maintaining the balance between business objectives and the artist s story This book deals with factors affecting strategy and how it relates to the artist and their management Although viable passive income generation in the streaming era is what is most sought after no other aspect including social media capital should be ignored as it is often even more important All this has an impact on how an artist succeeds in other music business areas This book illustrates the current state of things in light of new opportunities Strategy is the final chapter of The Essence of the Music Business Trilogy from Mika Karhumaa The Arts Festival Work Kit Dian Magie,1989 **Black Culture, Inc.** Patricia A. Banks,2022-04-19 A surprising and fascinating look at how Black culture has been leveraged by corporate America Open the brochure for the Alvin Ailey American Dance Theater and you ll see logos for corporations like American Express Visit the website for the Apollo Theater and you ll notice acknowledgments to corporations like Coca Cola and Citibank The Martin Luther King Jr Memorial and the National Museum of African American History and Culture owe their very existence to large corporate donations from companies like General Motors And while we can easily make sense of the need for such funding to keep cultural spaces afloat less obvious are the reasons that corporations give to them In Black Culture Inc Patricia A Banks interrogates the notion that such giving is completely altruistic and argues for a deeper understanding of the hidden transactions being conducted that render corporate America dependent on Black culture Drawing on a range of sources such as public relations and advertising texts on corporate cultural patronage and observations at sponsored cultural events Banks argues that Black cultural patronage profits firms by signaling that they value diversity equity and inclusion By functioning in this manner support of Black

cultural initiatives affords these companies something called diversity capital an increasingly valuable commodity in today's business landscape While this does not necessarily detract from the social good that cultural patronage does it reveals its secret cost ethnic community support may serve to obscure an otherwise poor track record with social justice Banks deftly weaves innovative theory with detailed observations and a discerning critical gaze at the various agendas infiltrating memorials museums and music festivals meant to celebrate Black culture At a time when accusations of discriminatory practices are met with immediate legal and social condemnation the insights offered here are urgent and necessary

Myself Among Others George Wein, Nate Chinen, 2009-02-18 No one has had a better seat in the house than George Wein. The legendary impresario has known the most celebrated figures of music in general and jazz in particular from Duke Ellington to Ella Fitzgerald to Miles Davis to Frank Sinatra. As a founder of the Newport Jazz Festival, the Newport Folk Festival, and the New Orleans Jazz and Heritage Festival, Wein has brought a dazzling spectrum of musicians to millions of fans, forever changing the musical landscape. In this highly praised memoir, Wein looks back on his life and career, describing his unforgettable relationships, sometimes smooth, sometimes tempestuous, with the great musicians he has known. From what really happened when Charlie Mingus visited the White House to how Miles Davis and the ensemble that would eventually record the greatest jazz album of all time, *Kind of Blue*, came together at Wein's Storyville nightclub to the day at Newport when Bob Dylan first went electric, here are the personalities and forces that have shaped the past half century of popular music. Billboard, 2004-07-31 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital events brand, content, and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital, and mobile entertainment issues and trends.

Running Times, 2007-07 *Running Times* magazine explores training from the perspective of top athletes, coaches, and scientists; rates and profiles elite runners; and provides stories and commentary reflecting the dedicated runner's worldview.

Caste Ideology and Interaction Dennis B. McGilvray, 1982-09-02 Following the publication of the book by E. R. Leach, *Aspects of Caste in South India, Ceylon, and North West Pakistan* (1960), much additional information was gathered on caste hierarchies in South Asia, and two major attempts were made to identify the underlying unity of this material: a structuralist one by Louis Dumont and an ethnosociological one by McKim Marriott et al. This quest for unity seemed attractive yet at the same time as the contributions to the present volume indicate premature. The four papers collected here and published in 1982 are all concerned with caste ideology and caste interaction in different locales of South Asia. **Kyoto's Gion Festival** Mark Teeuwen, 2023-01-12 This book focuses on the long history of what is arguably the most prestigious and influential festival in Japan, Kyoto's Gion festival. It explores this history from the festival's origins in the late 10th century to its post-war revival, drawing on Japanese historical studies and archival materials as well as the author's participant observation fieldwork. Exploring the social and political networks that have kept this festival alive for over a millennium, this book reveals how it has endured multiple reinventions. In particular, it identifies how at each historical juncture different groups have found new purposes for the festival and adapted this costly enterprise to suit their own ends. The history of this festival not only sheds light on the development of Japanese festival culture as a whole but also offers a window on Kyoto's history and provides a testing ground for recent festival theory. **The Trojan Horse** Deborah Philips, Garry Whannel, 2013-08-29 *The Trojan Horse* traces the growth of commercial sponsorship in the public sphere since the 1960s, its growing importance for the arts

since 1980 and its spread into areas such as education and health The authors central argument is that the image of sponsorship as corporate benevolence has served to routinize and legitimate the presence of commerce within the public sector The central metaphor is of such sponsorship as a Trojan Horse helping to facilitate the hollowing out of the public sector by private agencies and private finance The authors place the study in the context of the more general colonization of the state by private capital and the challenge posed to the dominance of neo liberal economics by the recent global financial crisis After considering the passage from patronage to sponsorship and outlining the context of the post war public sector since 1945 it analyses sponsorship in relation to Thatcherism enterprise culture and the restructuring of public provision during the 1980s It goes on to examine the New Labour years and the ways in which sponsorship has paved the way for the increased use of private public partnerships and private finance initiatives within the public sector in the UK
