Our package would not be complete without our robust media technology package with quality animations, digitized videos, OLC, and student interactive CD-ROM. Each chapter features numerous pedagogical tools that are carefully developed to help students grasp challenging concepts. These include: A numbered outline at the beginning of each chapter with accompanying concept statements for the main topics in each chapter. Check Your Progress questions and answers at the end of each major heading within the chapter to help students assess their understanding of the previous section. The boldface terms in each chapter are page referenced in an Understanding the Terms list at the end of the chapter, and a matching exercise allows students to test their knowledge of the terms. A Thinking Scientifically section at the end of each chapter gives students the opportunity to use critical thinking skills to respond to scientific questions. The Bioethical Issue at the end of each chapter briefly discusses a controversial issue confronting society and poses questions to help students fully consider the issue and arrive at an opinion. Numbered summary at the end of the chapter to help students review. Testing Yourself: objective questions at the end of the chapter to help students prepare for the test. Essentials of
