Judgment on the Front Line Chris DeRose, Noel M. Tichy, 2012-10-11 Front line employees who deal directly with customers are the face of any organization. Not only do they have the most impact on how a brand is perceived but they are also the most valuable source of insight into what customers want and how to give it to them. Unfortunately as management experts Chris DeRose and Noel M. Tichy explain most organizations don't know how to evaluate the risk of giving employees more autonomy. Many of those who are willing to try haven't even invested resources in ensuring that once the shackles are off front line employees make good judgments. Tichy and DeRose offer powerful examples of front line leadership such as How Zappos trusts its people to do anything in service of a customer including providing free product or reimbursing for mistakes. How Mayo Clinic of Arizona enabled its nurses to challenge the hierarchy in order to improve patient care.

Communication in Investigative and Legal Contexts Gavin Oxburgh, Trond Myklebust, Tim Grant, Rebecca Milne, 2015-12-14 Communication in Investigative and Legal Contexts. Despite a number of research studies there remain significant differences of opinion among psychologists, linguists and other practitioners on how best to describe particular types of questions and communicate most effectively in forensic contexts. Communication in Investigative and Legal Contexts brings clarity to the subject by providing readers with in depth coverage of the complex area of communication in forensic settings for example during investigative interviewing of victims, witnesses and suspects, high interest groups during discourse in courtrooms and via legal intermediaries and interpreters. Drawing on knowledge from forensic psychology, linguistics and law enforcement worldwide the text is unique in bridging the gap between these fields in a definitive guide to best practice with chapters written by teams bringing together expertise and specialties from each field. Part of the Wiley Series in the Psychology of Crime, Policing and Law the book is also linked to the International Investigative Interviewing Research Group (IIIRG) a worldwide network of interviewing professionals working with international bodies committed to improving investigative interviewing and ensuring all improvements are underpinned by a robust evidence base. Contributors are sourced from North America, Europe and Asia Pacific ensuring international relevance.
