Being a Teacher in Post-Apartheid South Africa Yusuf Sayed, Marcina Singh, 2025-05-01 In a compelling exploration of the challenges faced by newly qualified teachers NQTs in South Africa's evolving educational landscape this book provides an empirically grounded account of their experiences Drawing on extensive research it offers a poignant narrative that seeks to illuminate the nuanced journey these educators embark upon as they transition from teacher education spaces to the complex reality of classrooms in post Apartheid South Africa The book acts as a crucial platform for the voices of NQTs shedding light on the myriad enablers and disablers they encounter during this transformative period Timely and relevant it tackles pressing questions about the readiness of teacher education to prepare students for the demands of South African schools The book charts the transition from teacher education to active teacher for NQTs The lessons distilled from this research present a clarion call for a re assessment of teacher education policies and practices This book arrives at a pivotal moment as South Africa reviews its teacher education policies With the quality of initial teacher education programmes under scrutiny the book's critiques findings and recommendations serve as indispensable tools for policymakers arguing for the need to reconceptualise South African teacher education policies As South Africa strives to avoid a cycle of developing new teachers only to lose them due to inadequate support this book seeks to support educators policymakers and all those invested in the future of South African education toward creating a more socially just education system recognising the highly unequal society in which teachers work **Annual Report** South Africa. Contextualising Rural Education in South African Schools , 2023-04-03 South Africa's democratic government inherited a divided and unequal system of education Under apartheid South Africa had nineteen different educational departments separated by race language geography and ideology This education system prepared learners in different ways for the positions they were expected to occupy in social economic and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class The newly elected democratic government in 1994 laid a foundation for a single national education system Twenty five years after the dawn of democracy education is still in a parlous state in many communities in South Africa but it is in the rural areas mainly in the former homelands that learners are most disadvantaged Contributors are Olufemi Timothy Adigun Oluwatoyin Ayodele Ajani Alan Bhekisisa Buthelezi Joyce Phikisile Dhlamini Bongani Thulani Gamede Samantha Govender Lawrence Kehinde Nontobeko Prudence Khumalo Primrose Ntombenhle Khumalo Azwidohwi Philip Kutame Manthekeleng Linake Sive Makeleni Nkhensani Maluleke Bothwell Manyonga Mncedisi Christian Maphalala Takalani Mashau Hlengiwe Romualda Mhlongo Rachel Gugu Mkhasibe Dumisani Wilfred Mncube Nicholas Tumelo Mollo Ramashego Shila Mphahlele Fikile Mthethwa Grace Matodzi Muremela Edmore Mutekwe Nokuthula Hierson Ndaba Clever Ndebele Thandiwe Nonkululeko Ngema Phiwokuhle Ngubane Sindile Ngubane Dumisani Nzima Livhuwani Peter Ramabulana and Maria Tsakeni **South African**

Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI
