Activity 41: The Conditions in the South at the End of the War

Directions (Group D—Georgia): For this activity, you have been assigned to a group with a document to review. You will also use the interactive maps (temporarily located at <http://edilegends.com/aftermath/lesson/>) in this activity. Each group will review a document authored by someone affected by the devastation of the Civil War. The authors were selected to show a variety of contrasting views and also to reflect the different ways that reconstruction affected various states. While one document cannot speak to the effects of the war on an entire state, it will give you an insight into what may have represented a common experience and reaction to the War and its aftermath.

In your group, you will analyze the impact of the Civil War through the claims in your document and as they relate to your assigned state. To do this, you will also work through the interactive maps, pictures and quotes as you complete the worksheet that follows.

Upon receiving your document assignment, your group should read and discuss the meaning of your document. Then, locate the interactive maps for this lesson (temporarily located at <http://edilegends.com/aftermath/lesson/>) and begin working through the worksheet that follows.

From the Diary of Julia Johnson Fisher, January 3, 1864 (Georgia)
<http://docsouth.unc.edu/indy/fober/julia/fisher.html>

At the beginning of 1864 Georgia had seen virtually no fighting. Nevertheless, the state had already begun to feel the effects of the war.

Sunday, January 3: The children in the village are now old enough to begin to learn. A few weeks since we commenced having a Sabbath School. There are five in the class. Only one knows the alphabet, they seem very anxious to learn and learn readily, but Mr. Basil is so frightened at the coming of the enemy that he has resolved to move away and that takes away the three little girls. I am sorry to lose them and they seem equally sorry to go. The sabbath are so quiet and lonely they weary us. The children now know all their letters and seem to have received their first ideas of their savior. The oldest is scarcely ten years of age and very sickly. She told me today that although she could not read and write she can iron and scrub. It is said that she and the next, aged eight, cook, wash, etc.

If this war continues long I fear that such will be our fate, the negroes are becoming so scarce. Daniel returned after dinner with his two children—had walked about eight miles in the rain. She brought a ham and a bottle of syrup for Clarence—a Christmas gift. Mr. Linn came home to visit his family from camp, to the great joy of his wife who has been waiting for him. She and her little boy are entirely alone and pass as lonely a life as can well be imagined—having to sit by the fire week after week without sewing or knitting and almost without reading. There is no cloth to be had and no thread, no yarn—nor anything to

target includes detecting and categorizing the target into multiple classes in the first frame and provides each individual target an ID to keep its track in the subsequent frames of a video stream One category of multi target algorithms exploits global information to track the target of the detected target On the other hand some algorithms consider present and past information of the target to provide efficient tracking solutions Apart from these deep learning based algorithms provide reliable and accurate solutions But these algorithms are computationally slow when applied in real time This book presents and summarizes the various visual tracking algorithms and challenges in the domain The various feature that can be extracted from the target and target saliency prediction is also covered It explores a comprehensive analysis of the evolution from traditional methods to deep learning methods from single object tracking to multi target tracking In addition the application of visual tracking and the future of visual tracking can also be introduced to provide the future aspects in the domain to the reader This book also discusses the advancement in the area with critical performance analysis of each proposed algorithm This book will be formulated with intent to uncover the challenges and possibilities of efficient and effective tracking of single or multi object addressing the various environmental and hardware challenges The intended audience includes academicians engineers postgraduate students developers professionals military personals scientists data analysts practitioners and people who are interested in exploring more about tracking Another projected audience are the researchers and academicians who identify and develop methodologies frameworks tools and applications through reference citations literature reviews quantitative qualitative results and discussions

The Theology of the Acts of the Apostles Jacob Jervell,1996-05-16 Who are the people of God Luke s purposes in the Acts of the Apostles are to identify the church to establish the legitimacy of its gospel and to demonstrate that God was an active force in history He wanted to show that the communities of Jewish and Gentile Christians are the true heirs of God s promises to Israel He gives the history of the early church from the last decades of the first century as the communities become separated from their Jewish origins and Paul plays the lead role Acts offers an apologetic for the mixed mission of the church to Jews and Gentiles Luke was an eyewitness to some of what he reports but his authorship and views have been questioned This is a theological interpretation of the history of the church within history Luke is an artist a narrator rather than a systematic theologian but writes about the roles of God Christ and the Holy Spirit and of the church

A History of the Cultural Travels of Energy Peter Hjertholm, 2023-05-12 This book offers a cultural history of the travels of energy in the English language from its origins in Aristotle's ontology where it referred to the activity of being through its English usage as a way to speak about the inherent nature of things to its adoption as a name for the mechanics of motion capacity for work A distinguished literature deals with energy as matter of science history But this literature fails to adequately answer a historical question about the rise of the science of energy How did the commonplace word energy end up becoming a concept in science This account differs in important ways from the history of the word in the Oxford English Dictionary Discovering the origins and early travels of energy is essential for understanding how the word was borrowed into physics and therefore a cultural history of energy is a necessary companion to the science history of the term It is important that modern scholars in a variety of fields be aware that energy did not always have a scientific content The absence of that awareness can lead to have led to anachronistic interpretations of energy in historical sources from before the 1860s A History of the Cultural Travels of Energy will be useful for those interested in the history of science and technology cultural history and linguistics
