Guided Conflicts In The Middle East Answers:

Conflict Resolution in the Middle East J. Lewis Rasmussen, Robert B. Oakley, 1992 Shortly before the Middle East peace talks began in November 1991 the United States Institute of Peace conducted a four day simulation of what was about to unfold in the diplomatic dialogue between two enemy countries Israel and Syria whose representatives had never before sat together This volume presents a description of that exercise and its implications for peacemaking and conflict resolution in the Middle East a discussion of simulations and their utility for diplomats and for the field of conflict resolution and a discussion among the participants of prospects for the overall Middle East peace negotiations *Teaching about the Middle East* Social Studies School Service, 2002 **Middle East Crisis** Alan Dowty, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984

Soviet Strategy in the Middle East George W. Breslauer, 2015-07-16 Few regions of the world are as politically turbulent as the Middle East and nowhere is the potential for superpower conflict greater How does the Soviet Union view the Middle East conflict Can the USSR play a constructive role in the peace process In this volume first published in 1990 these questions and others central to an understanding of Soviet strategy in the region are addressed Previous analysts of Soviet Middle Eastern relations have tended to emphasize either the cooperative or the competitive aspects of Soviet behaviour Breslauer instead offers the multidimensional concept of collaborative competition to describe the mixed motives ambivalence and sometimes conflicting perspectives that have informed Soviet strategy in the region In such an unstable environment this strategy of collaborative competition has in turn encouraged approach avoidance behaviour for example while the Soviets may seek to moderate their radical allies they remain fearful that these allies once moderated might defect to US patronage Under Gorbachev the Kremlin continues to pursue this same strategy but with increased attention to improving collaboration redefining the nature of the competition and easing the approach avoidance dilemma Breslauer argues that these changes could lead to more flexible Soviet behaviour in the region This volume combines new in depth research on Soviet policy with new interpretations including insights drawn from relevant theories of international relations

Briefing on the Military Airlift Capability During the Middle East Conflict and the Enforcer Aircraft United States. Congress. House. Committee on Armed Services. Subcommittee No. 1, 1974 **The Yugoslav Example** Bettina Gruber, 2014 The term Yugoslav Wars or often the Balkan conflict refers to a series of wars in the region of former Yugoslavia which were associated with the break up of that state The Yugoslav Wars resulted in an unimaginable number of dead injured and displaced people They also had a devastating impact on the economy and on the environment Most notably in some of the states which emerged from the conflict people still to this day cannot peacefully coexist with one another Beyond

the affected region itself the military conflict also had significant implications for Europe and its member states It destroyed the illusion that Europe had overcome war Perhaps these recent wars have given Europe an impetus to draw lessons from them to find out what really needs to be done to build a peaceful Europe A particular characteristic of this publication is that it does not settle for a single precise analysis of the reasons for war and for post war conflicts Rather peace efforts and peace treaties are analyzed by focusing on their function of preventing conflicts or reducing their extent Emphasis is placed on the efforts of national actors as well as on those of actors in civil society to promote peace policies in the international sphere This collection of articles might for the first time clearly display the political challenges of peace in the context of the collapse of Yugoslavia and its subsequent wars It certainly seeks to illustrate what has been learned and what still needs to be learned for the future

EU Security Missions and the Israeli-Palestinian Conflict Amr Nasr El-Din, 2016-12-19 This book explores and analyses the various factors that affected the formulation of the common EU policy towards the MEPP as well as the specifics of the process by which the EU created EUPOL COPPS and EUBAM Rafah Based on confidential interviews with various actors in the process uniquely granted to the author it reveals the mechanics of decision making behind the scenes and argues that the EU decision to expand its role in the MEPP through the creation of the two missions was closely related to the EU's defined common interests in the Middle East

The Relationship between the Italian Leftist Parties and the Conflict in the Middle East Nicola Seu, 2016-03-08 Israel went from being a symbol of the success of the labour movement to the personification of Western imperialism almost overnight How was this possible How could such a radical change occur in such a short length of time Was it because of negligence within the Italian left resulting from a complex of excessive friendship towards the Jews and Israel Has the analytical power within leftist political thought grown to shed new light on what was before veiled It is difficult to believe that the presumed colonialist nature of Israel was not evident before the outbreak of the Six Day War just as it is not possible that the real nature of Zionism and the situation of the Palestinian victims were invisible prior to this event Through an historical political and ideological investigation this book explores this extraordinary and multifaceted phenomenon

Statebuilding in the Middle East and North Africa Irene Costantini, 2018-03-26 This book examines the regime changes in Iraq and Libya to unravel the complexity of statebuilding in countries emerging from authoritarianism and conflict in the Middle East and North Africa MENA region Framed in a comparative study of post 2003 Iraq and post 2011 Libya the book examines changes in key state dimensions representation and political authority security and wealth creation and distribution in a continuous dialogue with past trajectories in these two countries To grasp the nature and degree of these changes the mechanisms of state formation are explored in light of a statebuilding agenda that in its application from Iraq to Libya has adapted to different political prerogatives The analysis of Iraq and Libya serves the book s ultimate goal to address the debate on statebuilding from a regional MENA perspective and to lay the ground for the study of other contemporary cases undergoing radical and violent process of changes such as in Syria and Yemen The book grapples with problems associated with the difficult process of transition from authoritarianism through conflict and towards peace by focusing on the state its structure and function The work is informed by a large quantity of materials collected over the past five years including secondary literature policy papers and reports and semi structured interviews with key informants on Iraq and Libya This book will be of much interest to students of statebuilding Middle Eastern studies peace and conflict studies and International Relations in general

The Syrian Conflict in the News Gabriel Huland, 2024-02-22 The Syrian conflict constitutes one of the most covered events in this century Although the coverage of the Syrian uprising and civil war alternated between periods of saturation and silence it is indisputable that they received an enormous amount of media attention The Syrian Conflict in the News analyses the coverage of the Syrian conflict in the New York Times the Washington Post and the Wall Street Journal focusing on how the three newspapers framed six key events in Syria from March 2011 to April 2018 including the Ghouta chemical attack the Russian intervention in Syria and US led airstrikes Gabriel Huland argues that US foreign policy dominates the frames of the conflict which suggests that mainstream newspapers are excessively indexed to elite narratives In the United States the Syrian crisis prompted an intense debate about the appropriate degree of US involvement in the civil war and how the country should behave in the face of

growing Russian and Iranian influence in the Middle East The overreliance on elite narratives resulted in the underrepresentation of local voices and other players who were in a more advantaged position to devise solutions to the conflict By analysing the frames of the Syrian uprising and civil war in three mainstream newspapers and the relationship between media and international conflicts The Syrian Conflict in the News sheds light on crucial aspects of the crisis currently pervading US journalism

Reflections on God and His Creatures Dr. David Rabeeya,2008-02-07 The concept of God has always held conflicting messages The purpose of this book is to unravel the misconceptions and mixed messages about God in monotheistic religions throughout history More people have been killed in the name of God than for any other reason Reflection upon man s

manipulation of the concept of God under the guise of religion may serve the reader in his human journey God is always silent People are always talkative God has so many religions People are convinced that their religion is the right one in our spacious universe God is a commodity in the markets of humanity while he she keeps his her distance God is being manipulated by many and the eternal silence of the divine abuse continues forever The monotheists often forget that they are in the demographic minorities of the planet Most people in this world do not accept the idea of one god therefore new reflections of the monotheists concerning their negative utilization of the right God in their unique perspectives are due to be revealed to those who care about the divine defensive mode

Religion, Conflict and Military Intervention Dr Lee Marsden, Ms Rosemary Durward, 2013-03-28 For many years religion has been the neglected component of international relations and yet in an age of globalization and terrorism religious identity has become increasingly important in the lives of people in the West as well as the developing world The secularization thesis has been overtaken by an increased desire to understand how religious actors contribute to both conflict and the resolution of conflict This volume brings an exciting new perspective with fresh ideas and analyses of the events shaping conflict and conflict resolution today The book uniquely combines chapters highlighting Christian and Islamist theological approaches to understanding and interpreting conflict as well as case studies on the role of religion in US foreign policy and the Iraq war with religious perspectives on building peace once conflicts are resolved The volume provides an ideal starting point for anyone wishing to gain a deeper understanding of the religious character of conflict in the twenty first century and how such conflict could be resolved
