## Creating a film poster

### 1. Setting up your Film Poster Document in Illustrator

- ✓ Open up **Adobe Illustrator** and click **File > New**.
- ✓ Ensure that you have given your document a title in the **Name** box. The **Profile** should be set to **Custom** and the **Size** should be **A4**. Once you have checked these are set correctly, click **OK**.
- ✓ Your document should open up like so...
- ✓ In **Illustrator** (same as in **Photoshop**), you must create **Layers** to work from. Each time you add a new object/image/text etc., a new layer should be created. Your layers can be monitored in the **Layers Panel**. We create layers so that if you need to edit anything at a later date, you can do so without having to start the poster again.

In this guide, I will be replicating the **Clockwork Orange** image.

- ✓ As you can see in my **Layers Panel**, the **Layer 2** is my background colour of orange.
- ✓ To create a new layer, click the small **New Layer** icon at the bottom of the panel. Do this **EVERY** time you add something new to your poster.
