and exercises Switch on Your Brain Allan Parker, Margaret Cutler-Stuart, 1996-09-30 How many of us have found ourselves hampered in our work and at home because we can't take a balanced view? If this is you then you're probably a lopsided left or right brain person. This imbalance shows in other ways too: some of us suffer social embarrassment because of poor muscular coordination. Some even fall asleep at inconvenient times. Increasingly too, we demand more of our students and sports people who need to operate to their optimum potential. To be an active learner and a whole person, why not try Educational Kinesiology, a method of integrating left and right brain processes? Put simply, the techniques in Switch on Your Brain will improve your left and right brain coordination. The exciting thing is that you can see results quickly in some cases immediately. The tests and exercises can be done at home. Easy to use, they are safe for all to try. By increasing our capacity to learn, we can all improve our performance and enhance our self-esteem. Switch on Your Brain has helped many people change their lives, especially those with obvious learning difficulties, and the efficacy of this approach has been proved over many years.

Musculoskeletal Assessment Hazel M. Clarkson, 2000 Completely revised and updated, this edition presents the principles and methodology of assessing both joint range of motion (ROM) goniometry and manual muscle strength for the head, neck, trunk and extremities. Each chapter is devoted to a separate anatomical region and provides knowledge of pertinent surface anatomy and deep anatomy. Excellent photography and illustrations enhance comprehension of techniques and serve as a self-learning tool. New to this edition: New vertical format; second color added to line art; 200 new photographs; detailed coverage of ROM and muscle length assessment and measurement for each body region; comprehensive coverage of end-feels for each joint motion; and chapter relating assessment methods to treatment techniques and activities of daily living. A useful resource for assessment and treatment.
