Contracts Between Ecclesiastical Entities According to Canon Law Joseph Clifford N. Ndi ,2018-08-28 Within ecclesiastical circles both from the perspective of legal practice and ordinary relational matters between ecclesiastical entities the theme of contract very scarcely occupies a place of prominence It is a situation that is due on the one hand and to a large extent to the fact that the canonisation of civil law on contracts c 1290 CIC 1983 has had the consequence of transferring the preoccupation of the entities on this matter to the domain of civil law Besides and still connected to the above is the tendency to attribute a merely pastoral relevance to their relationships with little or no reference to the juridic aspects inherent in these relationships It is a situation that is largely responsible for the crisis which do not uncommonly characterise some of these relationships as verified over the centuries particularly in the relationship between dioceses and religious institutes The issuance of various papal and conciliar exhortations before and after Vatican II as well as the normative instructions and legal provisions contained in various juridic documents most prominently cc 271 520 681 and 790 of CIC 1983 has gone a long way to dissipate some of the tensions of the past However the true nature of how the contractual relationship between ecclesiastical entities including the attendant issues of conceptual understanding civil status of ecclesiastical entities resolution of contractual disputes etc remains a matter of investigative interest for the canonist This is in a nutshell the substance of this research work The conclusions arrived at offer the reader an insight into the available untapped resources within the ecclesiastical legal system as well as some considerable possibilities which remain to be explored to the benefit of the subjects of canon law

The Oxford Handbook of the Latin American Novel Juan E. De Castro,Ignacio Lòpez-Calvo,2023 The Latin American novel burst onto the international literary

scene with the Boom era led by Julio Cortázar, Gabriel García Márquez, Carlos Fuentes and Mario Vargas Llosa and has influenced writers throughout the world ever since. García Márquez and Vargas Llosa each received the Nobel Prize in literature and many of the best known contemporary novelists are inspired by the region's fiction. Indeed, magical realism, the style associated with García Márquez, has left a profound imprint on African American, African Asian, Anglophone Caribbean and Latinx writers. Furthermore, post-Boom literature continues to garner interest from the novels of Roberto Bolaño to the works of César Aira and Chico Buarque to those of younger novelists such as Juan Gabriel Vásquez, Alejandro Zambra and Valeria Luiselli. Yet for many readers, the Latin American novel is often read in a piecemeal manner, delinked from the traditions, authors and social contexts that help explain its evolution. The Oxford Handbook of the Latin American Novel draws literary, historical and social connections so that readers will come away understanding this literature as a rich and compelling canon. In forty-five chapters by leading and innovative scholars, the Handbook provides a comprehensive introduction helping readers to see the region's intrinsic heterogeneity; for only with a broader view can one fully appreciate García Márquez or Bolaño. This volume charts the literary tradition of the Latin American novel from its beginnings during colonial times, its development during the nineteenth and the first half of the twentieth century, and its flourishing from the 1960s onward. Furthermore, the Handbook explores the region's representations of identity, narrative trends and authors that make this literature so diverse and fascinating, reflecting on the Latin American novel's position in world literature.
