Overcoming Fragmentation in Teacher Education Policy and Practice Brian
Hudson, 2017-04-06 A collaborative series with the University of Cambridge Faculty of Education highlighting leading edge
research across Teacher Education International Education Reform and Language Education The need for greater coherence
between the different aspects of teacher education has long been recognised The universitization of initial teacher education
is sometimes perceived as widening the gap between theory and practice In many countries there is no firm alignment
between initial teacher education induction and continuing professional development Teacher education drivers are related

to national systems and represent conflicting forces on teacher education institutions Neoliberal policy initiatives have resulted in greater fragmentation This book considers these issues in an international context and aims to identify directions for future research in relation to teacher education policy and practice Arun Deep's 10 Years Solved Papers For ICSE
