knowledge With his trademark conversational flair and informal personal perspective Becker provides a guide that researchers can use to produce general sociological knowledge through case studies He champions research that has enough data to go beyond guesswork and urges researchers to avoid what he calls skeleton cases which use fictional stories that pose as scientific evidence Using his long career as a backdrop Becker delivers a winning book that will surely change the way scholars in many fields approach their research   *Indonesian for Nerds Guide Book* Matt Kingsley, Ready to unlock the ultimate cheat code for learning Indonesian This isn t your average language textbook it s your all access pass to the heart of Indonesian geek culture Whether you re a gamer cosplayer meme lord or comic con regular Indonesian for Nerds Guide Book transforms language learning into a fandom powered quest Dive into chapters packed with real life slang gamer lingo and pop culture references Master the art of chatting in group chats ordering street food like a pro and decoding inside jokes at conventions With expert tips daily practice quests and a fun relatable style you ll level up your skills and connect with locals friends and fellow fans no boring drills just pure nerdy adventure Speak like a local play like a pro and make every conversation an epic win   **PC World** ,2005-03   **Social Skills for Teenagers with Developmental and Autism Spectrum Disorders** Elizabeth A.
