

Chapter 1

It's smart to be geopolitical!

e83af40360dae3fba9dd6a869ff3e473
e83af40360dae3fba9dd6a869ff3e473

While the title of this opening chapter may appear to be a little self-serving and owes its origins to Robert Strausz-Hupe, the founder of the right-wing Foreign Policy Research Institute in the United States, I aim to convince you that it is not only smart but also essential to be geopolitical. Amid the ongoing bloodshed in Afghanistan, Iraq, Sudan, and less well reported places such as the Congo, the continued relevance of geopolitics is overwhelming. Despite the claims made in favour of ever more intense forms of globalization, the relevance of territory, international boundaries, and claims to sovereignty remain as pressing as ever. A few feet here or there can mean the matter of life and/or death. The labelling of a particular place as 'dangerous' and/or 'threatening' can invite military assaults from land, sea, and air, as civilians found to their cost in southern Lebanon in the summer of 2006. Even America's allies in the midst of a Global War on Terror such as Pakistan, according to President Pervez Musharraf, have occasionally faced the unpleasant prospect of being 'bombed back to the stone age' if their commitment to root out terrorists and their networks ever wavered.

For those of us living in Europe and North America, geopolitics might at first appear to have less relevance – something to be applied to more turbulent areas of the world. This is a mistaken view. Geopolitics is also part of our everyday lives and by 'our' I

Geopolitics A Very Short Introduction

Terry Locke

Geopolitics A Very Short Introduction:

Geopolitics Klaus Dodds, 2019-07-25 Geopolitics is a slippery term From great power politics and speculation about resource scrambles to everyday encounters and objects such as smart phones it affects citizens corporations international bodies social movements and governments Geopolitics is far more than simply the impact of geographical features such as rivers mountains and climate on political developments Geography matters but not necessarily in the way that pundits and presidents assume In this Very Short Introduction Klaus Dodds tours the field of geopolitics encompassing both its intellectual historical origins and its current concerns As people struggle to cross borders moving a few feet either side of a territorial boundary can be a matter of life or death dramatically highlighting the connections between place and politics Even far away from the front lines of states geopolitics remains an important part of everyday life A country's connectivity location size and resources all affect how the people that live there understand and interact with the wider world In this third edition Dodds includes new sections considering the rise of populism and economic nationalism as examples of how states people and corporations manage territorial frames for political projects such as Make America Great Again One Belt One Road and Brexit ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Geopolitics Klaus Dodds, 2014 Geopolitics is a way of looking at the world Using wide ranging examples from historical maps to James Bond films and the rhetoric of political leaders like Churchill and George W Bush this title shows why for a full understanding of contemporary global politics it is essential to be geopolitical

Legal Geography Matteo Nicolini, 2022-12-05 This book invites readers to critically rethink the interrelations between geography and the law Traditionally legal geographical interrelations have been dominated by scholars with backgrounds in geopolitics economics or geography More recently a new interdisciplinary approach has been developed with the aim of offering a fresh perspective on how law and geography intersect There has been a steady growth in cross disciplinary research in this field how legal geographical taxonomies interrelate has attracted attention from scholars and academics with a diverse range of backgrounds namely law anthropology and human physical geography thus giving rise to several publications Against this backdrop the book adopts a legal comparative perspective and assesses normative spatialities which are the outcomes of processes of legal spatial production In addition the comparative analysis offers readers new insights on some traditional geographic features which are essential to legal studies territorial identity regional demarcation territorial alternation and place name policy Examples are drawn from several jurisdictions both from the Global North and the Global South and partly employ a diachronic perspective As its subversive character is ideally suited to revealing policies and agendas comparative law is used to identify the ethnocentric and colonial biases underpinning the use and misuse of legal geographic devices by

policymakers and academics In sum the book presents legal geography as an interdisciplinary undertaking in which geographers and legal scholars can jointly examine common concepts in the historical cultural political and social contexts in which law is practised The book transcends the boundaries between disciplines to engage in a fruitful dialogue on how the law can help to address the current socio geographic and ecological crises *Geopolitical Shakespeare* Erica Sheen,2024-03-13 *Geopolitical Shakespeare* Western Entanglements from Internationalism to Cold War examines the entanglement of Shakespearean culture in the geopolitical dynamics of the post war West Taking its cue from a speech given by Albert Einstein in London in 1933 in which Shakespeare is cited as an example of the Western value of personal and intellectual freedom this book explores a series of events between 1945 and 1955 featuring key historical figures scientists international lawyers diplomats and politicians writers actors and filmmakers who experienced the tensions of the early Cold War through Shakespeare or called on him to articulate this new post war world Erica Sheen examines political diplomatic cultural and economic interactions within core Western power relations the USA UK and Europe with particular reference to Germany in which Shakespeare or the idea of Shakespeare was entangled in the struggle for new ideas and social structures The subjects of this book include John Humphrey and the drafting of the Universal Declaration of Human Rights the Nuremberg Trials and the foundation of West Germany Noel Annan and the Berlin Elizabethan Festival an American production of Hamlet in Elsinore Laurence Olivier David Selznick and the Shakespeare film in post war Hollywood Graham Greene and *The Third Man* and Carl Schmitt and Salvador de Madariaga on Hamlet in post war Europe In each of these case studies Sheen discovers a Shakespeare for our time engaged in contestations of territoriality in cultures of international law and human rights theatre film and literature *A Guide to Spatial History* Konrad Lawson,Riccardo Bavaj,Bernhard Struck,2022-01-07 This guide provides an overview of the thematic areas analytical aspects and avenues of research which together form a broader conversation around doing spatial history Spatial history is not a field with clearly delineated boundaries For the most part it lacks a distinct unambiguous scholarly identity It can only be thought of in relation to other typically more established fields Indeed one of the most valuable utilities of spatial history is its capacity to facilitate conversations across those fields Consequently it must be discussed in relation to a variety of historiographical contexts Each of these have their own intellectual genealogies institutional settings and conceptual path dependencies With this in mind this guide surveys the following areas territoriality infrastructure and borders nature environment and landscape city and home social space and political protest spaces of knowledge spatial imaginaries cartographic representations and historical GIS research *The SAGE Encyclopedia of War: Social Science Perspectives* Paul Joseph,2016-06-15 Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast *The SAGE Encyclopedia of War Social Science Perspective* views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass

media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format authored and signed by key academics in the field Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader s Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology India and the World in the First Half of the Twentieth Century Madhavan K. Palat,2017-11-01 This book examines how India was placed and placed itself in the world during the first half of the 20th century in a period of global turmoil and set against the subcontinental contest for independence In situating India in the world it looks not just at current foreign policy studies but also at geopolitics World War experiences theoretical and strategic approaches early foreign policy institutional transitions and the role of Indian civil and foreign diplomatic services The work explores history and theory with a focus on cosmopolitanism beyond nationalism The use of extensive sources from archives in UK and Russia especially in different languages mainly German and Russian lends this volume an edge over most other works The book will be useful to professional academics historians including military historians security specialists literary specialists foreign policy experts journalists and the general reader interested in international issues Material Politics Andrew Barry,2013-09-23 In Material Politics author Andrew Barry reveals that as we are beginning to attend to the importance of materials in political life materials has become increasingly bound up with the production of information about their performance origins and impact Presents an original theoretical approach to political geography by revealing the paradoxical relationship between materials and politics Explores how political disputes have come to revolve not around objects in isolation but objects that are entangled in ever growing quantities of information about their performance origins and impact Studies the example of the Baku Tbilisi Ceyhan oil pipeline a fascinating experiment in transparency and corporate social responsibility and its wide spread negative political impact Capitalizes on the growing interdisciplinary interest especially within geography and social theory about the critical role of material artefacts in political life COVID-19 and a World of Ad Hoc Geographies Stanley D. Brunn,Donna Gilbreath,2022-09-15 This book provides an interdisciplinary overview of the causes and impacts of COVID 19 on populations economies politics institutions and environments from all world regions The book maps the causes effects and impacts of the virus and describes the impact of the virus on among others health care teaching and learning travel tourism daily life local and regional economies media impacts elections and indigenous populations and much more Contributions to this book come from the humanities social and policy science disciplines as well as from emerging transdisciplinary fields including climate change sustainability health care and epidemiology security art visualization economic and social well being law and borderland studies As such this book will be a rich source of information to all those geographers social scientists and urban and

regional planners working in this field The Wiley Blackwell Companion to Tourism Alan A. Lew, C. Michael Hall, Allan M. Williams, 2014-04-02 The Wiley Blackwell Companion to Tourism presents a collection of readings that represent an essential and authoritative reference on the state of the art of the interdisciplinary field of tourism studies Presents a comprehensive and critical overview of tourism studies across the social sciences Introduces emerging topics and reassesses key themes in tourism studies in the light of recent developments Includes 50 newly commissioned essays by leading experts in the social sciences from around the world Contains cutting edge perspectives on topics that include tourism's role in globalization sustainable tourism and the state's role in tourism development Sets an agenda for future tourism research and includes a wealth of bibliographic references **Introducing Human Geographies** Paul Cloke, Philip Crang, Mark Goodwin, 2013-12-05 Introducing Human Geographies is the leading guide to human geography for undergraduate students explaining new thinking on essential topics and discussing exciting developments in the field This new edition has been thoroughly revised and updated and coverage is extended with new sections devoted to biogeographies cartographies mobilities non representational geographies population geographies public geographies and securities Presented in three parts with 60 contributions written by expert international researchers this text addresses the central ideas through which human geographers understand and shape their subject Part I Foundations engages students with key ideas that define human geography's subject matter and approaches through critical analyses of dualisms such as local/global society/space and human/nonhuman Part II Themes explores human geography's main sub disciplines with sections devoted to biogeographies cartographies cultural geographies development geographies economic geographies environmental geographies historical geographies political geographies population geographies social geographies urban and rural geographies Finally Part III Horizons assesses the latest research in innovative areas from mobilities and securities to non representational geographies This comprehensive stimulating and cutting edge introduction to the field is richly illustrated throughout with full colour figures maps and photos These are available to download on the companion website located at www.routledge.com 9781444135350 **The Wiley Blackwell Companion to Tourism** C. Michael Hall, 2024-07-11 The first authoritative overview of tourism studies published post COVID 19 The Wiley Blackwell Companion to Tourism remains a definitive reference in this interdisciplinary field Edited and authored by leading scholars from around the world this state of the art volume provides a comprehensive critical overview of tourism studies across the social sciences In depth yet accessible chapters combine established theories and cutting edge developments and analysis addressing a wide range of current and emerging topics issues debates and themes The second edition of the Companion reflects the complexity of the changing field incorporating new developments diverse theories core themes and fresh perspectives throughout New and revised chapters explore the organization and practice of tourism pressing health economic social and environmental challenges the impact of the COVID 19 pandemic on tourism and the tourist industry empowerment placemaking mindfulness

Sense of Place, Identity and the Revisioning of Curriculum Terry Locke, 2023-08-12 This book explores intersections between sense of place the formation of identity indigeneity and colonisation literature and literary study the arts and a revisioned school curriculum for the Anthropocene Underpinning the book is a conviction that sense of place is central to the fostering of the change of heart required to secure the survival of human life on earth It offers a coherent overview of seemingly disparate realities on a geographically and historically sprawling canvas The book is a work of literary non fiction drawing on a range of sources literary works and criticism theoretical research empirical studies and artworks Of its very nature the book enacts an extensive cultural critique After establishing a cross disciplinary foundation for sense of place the book describes its relationship to identity with reference to such terms as attachment dispossession reclamation and representation It shows how a hopeful narrative for planet stewardship can be developed by the uptake of indigenous and traditional discourses of place It concludes with the envisioning of a place conscious curriculum and ways in which an activist agenda might be pursued in the Anthropocene

Wars and the World Tim Kucharzewski, 2024-06-19 This book offers a descriptive analysis of the Soviet Russian wars in Afghanistan Chechnya and Georgia as well as an in depth exploration of the ways in which these wars are framed in the collective consciousness created by global popular culture Russian and Western modalities of remembrance have been and remain engaged in a world war that takes place not exclusively but intensively on the level of popular culture The action reaction dynamic confrontational narratives and othering between the two camps never ceased The Cold War in many ways and contrary to the views of many others who hoped for the end of history never really ended

Handbook of New Security Studies J. Peter Burgess, 2010-01-22 This new Handbook gathers together state of the art theoretical reflection and empirical research by a group of leading international scholars relating to recent transformations in the field of security studies

Media and the Cold War in the 1980s Henrik G. Bastiansen, Martin Klimke, Rolf Werenskjold, 2018-11-08 The Cold War was a media phenomenon It was a

daily cultural political struggle for the hearts and minds of ordinary people and for government leaders a struggle to undermine their enemies ability to control the domestic public sphere This collection examines how this struggle played out on screen radio and in print from the late 1970s through the early 1990s a time when breaking news stories such as Ronald Reagan s Star Wars program and Mikhail Gorbachev s policy of glasnost captured the world s attention Ranging from the United States to the Soviet Union and China these essays cover photojournalism on both sides of the Iron Curtain Polish punk Norwegian film Soviet magazines and more concluding with a contribution from Stuart Franklin one of the creators of the iconic Tank Man image during the Tiananmen Square protests By investigating an array of media actors and networks as well as narrative and visual frames on a local and transnational level this volume lays the groundwork for writing media into the history of the late Cold War

James Bond Uncovered Jeremy Strong, 2018-05-29 This volume brings fresh perspectives to the study of James Bond With a strong emphasis on the process of Bond s incarnation on screen and his transit across media forms chapters examine Bond in terms of adaptation television computer games and the original novels Film nonetheless provides the central focus with analysis of both the corpus as a whole from Dr No to Spectre and of particular films from popular and much discussed movies such as Goldfinger and Skyfall to comparatively under examined texts such as the 1967 Casino Royale and A View to a Kill Contributors expertise and interests encompass such diverse aspects of and approaches to the Bond stories as Sound Design Empire Food and Taste Geo politics Feminist re reading Tarot Landscape and Sets

Prisoners of Geography Tim Marshall, 2016-10-11 First published in Great Britain in 2015 by Elliott and Thompson Limited

The Unwanted Europeanness? Branislav Radeljić, 2021-01-18 Can we be optimistic about the future of Europe To what extent has the European integrationist project affected the discourse about the core and the semi periphery Why does the European Union struggle with its own and the neighbouring Other These are some of the questions addressed in this thought provoking volume about the dilemmas surrounding the ever uncertain European unity A wide range of contributors have drawn upon invaluable sources and data to examine a broad selection of official discords and discrepancies characterizing the EU s relations with the Balkans East Central Europe and beyond Moreover past events have shaped present political and socioeconomic cooperation or its deficiencies with no reason to believe that these present challenges will not further influence future arrangements at a supranational or intergovernmental level Whichever the period questions of belonging solidarity and the un wanted Other have remained relevant and have continued to penetrate discussions In addition to complementing the existing analyses of European developments the present findings are of great relevance for researchers policymakers and general readership In fact they are essential if we want to see Europe develop

South Africa and the Global Hydrogen Economy The Mapungubwe Institute for Strategic Reflection, 2014-07-01 South Africa and the Global Hydrogen Economy is the publication of a MISTRA research project on the use of strategic minerals in the global putative hydrogen economy The book highlights the global significance of platinum group metals PGM and explores the

strategic opportunities that arise out of South Africa's endowment of these strategic resources. From their extraction to their applications in fuel cells, what options are available for the country, the region and the world to better leverage this endowment towards supporting growth and development objectives. In view of their expanding range of applications, do PGM need the hydrogen economy? Conversely, does the hydrogen economy need PGM? Addressed to all industry stakeholders including those in the public and private sectors, the options explored in this book are based on a thorough analysis of the global dynamics that should inform policy and business models related to PGM.

Thank you very much for reading **Geopolitics A Very Short Introduction**. Maybe you have knowledge that, people have search numerous times for their chosen books like this Geopolitics A Very Short Introduction, but end up in malicious downloads.

Rather than reading a good book with a cup of tea in the afternoon, instead they juggled with some malicious bugs inside their desktop computer.

Geopolitics A Very Short Introduction is available in our book collection an online access to it is set as public so you can get it instantly.

Our books collection hosts in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the Geopolitics A Very Short Introduction is universally compatible with any devices to read
